Appendix 4	Definition of taught and research courses	145

University student statistics 2010-11

Notes to statistical tables

1. Changes to 2010-11 tables

In 2010-11 the 'Student statistics' publication has been substantially restructured. It includes new, additional tables and has adopted a more thematic approach to make data easier to find. Appendix 1 provides a mapping between the data presented in 'Student Statistics 2009-10' and the new tables in the 2010-11 publication.

2. General

2.1. Excluded cases

The following groups of students are excluded from all of the tables:

- students who, at the census date, are on intermission;
- students aiming for a Ph.D. by Special Regulations;
- students who are entered for an examination only, i.e., are not attending a course;
- students reading the M.Res. in Photonic Systems Development who are registered students at University College London (the course is delivered jointly by Cambridge and UCL).

2.2. Student headcount data census date

All headcount data are for the student population as at 1 December 2010. This is the census date for the Higher Education Student Early Statistics (HESES) survey submitted to the Higher Education Funding Council for England (HEFCE) in December of each year.

2.3. Full-time equivalent student load data census period

The full-time equivalent student load data are based on the Higher Education Statistics Agency (HESA) reporting period. The University makes an annual return to HESA, which provides more detailed information on individual students and covers the period 1 August 2010 to 31 July 2011.

2.4. Fee eligibility

Fee eligibility categories reported in the tables are as follows:

- Home – students with qualifying residence¹ in the UK;
- EU – students with qualifying residence in the EEA (comprises the 27 countries of the EU plus Iceland, Norway and Liechtenstein) or Switzerland;
- Islands – students with qualifying residence in the Isle of Man or the Channel Islands;
- Overseas – students who do not have qualifying residence in the categories above.

¹ For definitions of qualifying residence for each of the fee eligibility categories please consult The Education (Fees and Awards) (England) Regulations 2007.

2.5. Mode of study

'Writing up/under exam' category refers to postgraduate students who have completed the minimum requirements of their course but who have either not yet submitted their dissertation or have not yet had their degree approved. Such students are not required to be in attendance at the University.

Students are classified as 'full-time' if they are undertaking a full-time course and are neither writing up nor under examination nor intermitting.

Students are classified as 'part-time' if they are undertaking a part-time course and are neither writing up nor under examination nor intermitting.

Up to and including 2005–06, students undertaking a part-time course and students writing up/under exam (either full-time or part-time) were both classified as 'not full-time'.

The definitions of 'full-time', 'part-time', 'not full-time' and 'writing up/under exam' as well as the methods of calculating student load for these categories have changed over time. Please see notes 3.1 and 3.4 below for further details of these changes.

2.6. Undergraduate and postgraduate courses

The headings 'Undergraduate/Postgraduate' in these tables are as defined by HESA. A complete list of courses designated 'undergraduate' or 'postgraduate' is shown in Appendix 2.

2.7. Arts-based and science-based cost centres

The headings 'Arts/Science' in these tables are as defined by HESA. The division of faculties and departments between arts-based and science-based cost centres is shown in Appendix 3.

2.8. Postgraduate taught and research courses

The headings 'PGT/PGR' in these tables are as defined by HESA. A complete list of courses designated 'taught' or 'research' is shown in Appendix 4.

3. Time series tables

3.1. Changes in definitions and census dates

Up to and including 1993–94, the definitions of UGC/UFC (the bodies that preceded HEFCE) have been used in cumulative tables; the figures were calculated at the UGC/UFC census date of 31 December. In and after 1994–95, HEFCE/HESA definitions have been used, and the baseline has been 1 December.

One of the areas affected by these changes in definition is categorisation of mode of study for postgraduate students. Up to and including 1993-94 postgraduate students were classified as 'not full-time' if they were:

- undertaking a part-time course;
- either writing up or under examination;
- intermitting their course of study;
- students holding established University posts;

- research assistants financed from Research Council grants or research contracts.

Between 1995-95 and 2005-06 postgraduate students were classified as 'not full-time' if they:

- were undertaking a part-time course;
- had completed the minimum requirements of their course and were not intermitting, i.e., they were either writing up or under examination.

Between 2006-07 and 2009-10 'not full-time' category was further divided into 'full-time writing up/under exam', 'part-time' and 'part-time writing up/under exam'.

From 2010-11 categories 'full-time writing up/under exam' and 'part-time writing up/under exam' have been combined into one category 'writing up/under exam'.

3.2. Temporal scope of time series tables

Most of the time series tables show data for the last twenty years only. For older data, please refer to previous publications or contact the Student Statistics Office (for contact details see 'Further information' below). However, for some of the tables it has not been possible to access data for the whole twenty-year period; therefore, for these tables the time series starts from the year in which a particular breakdown of the data became available.

3.3. Changes in calculation of undergraduate full-time equivalent (FTE) student load

The detailed calculation of undergraduate FTE is complex and modified from time to time. Changes in student load may be the result of changes to the formula, not a change in the student cohort itself. Any queries should be directed to the Student Statistics Office (for contact details see 'Further information' below).

3.4 Changes in the calculation of postgraduate full-time equivalent (FTE) student load

Time series data should be interpreted taking into account changes in the definitions of 'full-time', 'not full-time', and 'writing up/under exam' and in the allocation of FTE (full-time equivalent) load for postgraduate students for different periods of their career, as follows:

- Up to and including 2004–05, postgraduate students undertaking a full-time course were recorded as 'full-time' for the required terms of their course, and after those terms were completed, as 'not full-time'. For example, a three-year Ph.D. was recorded as 'full-time' in the first nine terms (and allocated an FTE load of 100% for each year) and as 'not full-time' in and after the tenth term (and allocated an FTE load of 50% for each complete subsequent year).
- In 2005–06 and 2006–07, postgraduate students undertaking a full-time course were recorded as 'full-time' for the required terms of their course **plus one extra term**, and thereafter as 'not full-time' (defined as 'full-time writing up/under exam' in 2006–07). Thus in 2005–06, the typical three-year Ph.D. student was recorded as 'full-time' in the first ten terms and from the eleventh term onwards as 'not full-time' ('full-time writing up/under exam' in 2006–07). The allocation of FTE load was 100% for the first ten terms and 0% in and after the eleventh term. The annual load was therefore 100% for each of the first three years, 33% for the fourth year (in respect of the tenth term) and 0% for all subsequent years.

- From 2007–08, postgraduate students undertaking a full-time course are recorded as ‘full-time’ for the required terms of their course and as ‘full-time writing up/under exam’ if they have completed the required terms. Thus the typical three-year Ph.D. student is recorded as ‘full-time’ in the first nine terms and from the tenth term onwards as ‘full-time writing up/under exam’. The allocation of FTE load is 100% for the first nine terms and 0% in and after the tenth term. The annual load is therefore 100% for each of the first three years and 0% for all subsequent years.
- Before 2005–06, the load attributed to students registered on the Master of Studies (M.St.) courses was assigned to cost centre 41 (Institute of Continuing Education). In and after 2005–06, M.St. student load has been reassigned to the appropriate cost centres based upon the relevant M.St. department course owners.

The effects of these changes in definitions are:

- In comparison to 2004–05 totals, the number of postgraduate students defined as ‘full-time’ in 2005–6 and 2006–07 increased, but the associated FTE load decreased.
- In comparison to 2006–07 totals, both the number and the FTE load of postgraduate students defined as ‘full-time’ in 2007–08 decreased.

Student load for the non-matriculated postgraduate students at the Institute of Continuing Education or on INSET (In-Service Education and Training) courses at the Faculty of Education have been added up to the total load for matriculated students and the resultant sum has been presented separately in the time series load tables for all years. Up to and including 2007-08 the load for students on the Master of Education (M.Ed.) course was treated in the same manner as the load for non-matriculated students. From 2008-09, M.Ed. student load has been included with the load for the rest of the matriculated students broken down by gender and cost centre in Tables TS_05 and TS_06.

3.5. Impact of European Union expansion on Home/Overseas student distribution

On 1 May 2004, the following countries were granted full EU membership: Cyprus, the Czech Republic, Estonia, Hungary, Latvia, Lithuania, Malta, Poland, Slovakia, and Slovenia. In and after 2005–06, students from those countries are classified as Home/EU, not Overseas. On 1 January 2006, Bulgaria and Romania were granted full EU membership. Students from those countries are classified as Home/EU in and after 2007–08.

4. Full-time equivalent (FTE) student load tables

4.1. Departmental student load measured as FTE – full-time equivalence

The departmental load table presents the distribution of FTE student load between departments (that is, departments, faculties and other institutions). The data are based on the department responsible for delivering the course/supervising the research. All departments are assigned to a cost centre (see Appendix 3) and FTE load follows this attribution. Any queries should be directed to the Student Statistics Office (for contact details see ‘Further information’ below).

4.2. Undergraduate student load

The calculation of undergraduate student load differs from the method used for the head count of students in the following respects:

- Third-year pre-clinical medical and pre-clinical veterinary medical students are counted as load on the faculty/department appropriate to the Tripos examination for which they were entered.
- Modern Languages and Asian and Middle Eastern/Oriental Studies students spending a compulsory year abroad are counted as a load of 0.5 on the appropriate faculty or department, but are included in the headcount tables as full-time students.
- Students studying in Paris on the Double Maîtrise programme are given an FTE load of zero, but are included in the headcount tables as full-time students.

Candidates for Triposes that are taught entirely within a single department are counted as an FTE load of 1.0 on the faculty/department concerned. Other candidates are counted as a fractional FTE load on departments appropriate to the papers they are offering. For example, a candidate for Part IA of the Natural Sciences Tripos offering Chemistry, Physics, Materials and Mineral Sciences, and Mathematics is counted as an FTE load of 0.27 on Chemistry, 0.3 on Physics, 0.135 on Earth Sciences, 0.135 on Materials Science and Metallurgy, and 0.16 on DAMTP.

5. All student headcount tables

5.1. Matriculated and non-matriculated students

Matriculation marks the formal admission of a student to membership of the University. In general, to qualify for matriculation, a student must have been admitted to a College and, unless a Graduate Student or an Affiliated Student, must satisfy the examination requirements for matriculation. Statue B, I, 1 (a)-(d) and Chapter II of Ordinances provide a list of persons qualified to matriculate. Students on the following courses are not required to matriculate nor be admitted as a member of a Cambridge College:

- Certificate and diploma courses delivered by the Institute of Continuing Education;
- INSET (In-Service Education and Training) courses delivered by the Faculty of Education;
- Certificate in Theology for Ministry;
- Certificate course delivered by the Cambridge Programme for Sustainability Leadership.

5.2. Graduate and postgraduate students

Within the University of Cambridge, students enrolled on a postgraduate-level course are further divided on the basis of the student's course of study, whereby some students are registered as graduate students and others are not. Tables that present data by course of study reflect this division under the respective headings 'Graduate students' and 'Postgraduate students'.

5.3. Current intake

Current intake for headcount tables is defined as students admitted since the preceding 1 December census date. For postgraduate students this definition includes students admitted in the Lent, Easter and Michaelmas terms preceding the census date. In Student Statistics publications from 2007–08 to 2009–10 postgraduate students admitted in the Lent and Easter terms preceding the census date were reported in additional tables.

5.4. Affiliated students and Cambridge graduates reading triposes

'Affiliated student' is defined as any person who, before matriculation in the University of Cambridge, has received or become qualified to receive a degree from another institution of higher education, subject to approval. Students who already hold a Cambridge degree are

thus excluded from this definition and are recorded as 'Cambridge graduates reading triposes'. These definitions are not used by HEFCE/HESA.

6. Undergraduate headcount tables

6.1. Categories of students included

The undergraduate tables include students aiming for the following qualifications:

- B.A., M.Eng., M.Math., M.Sci., B.Th. or Mus.B.;
- Clinical Medicine (M.B.);
- Clinical Veterinary Medicine (Vet.M.B.).

The undergraduate tables also include students reading triposes who are not aiming for a qualification because they already hold a Cambridge degree that prevents them from being awarded a B.A. These students are described in the tables as 'Cambridge graduates reading Triposes'.

The undergraduate headcount tables include outgoing exchange students (ERASMUS, MIT and NUS) and students studying or working abroad as part of their course.

6.2. Categories of students excluded

Incoming exchange and other visiting students are excluded from most undergraduate headcount tables, with the exception of Tables UC_HC_01, UG_HC_02, UC_HC_03a and UG_HC_08.

Non-matriculated students following undergraduate-level courses at the Institute of Continuing Education or studying for the Certificate in Theology for Ministry are excluded from the headcount tables. However, an estimate of FTE load for these students is included in the FTE load tables.

6.3. Pre-clinical medical and veterinary students

Pre-clinical medical and veterinary students read the Medical and Veterinary Sciences Tripos in years one and two, but read a different Tripos in year three. In all tables they are included under the respective headings 'Medicine (pre-clinical)' or 'Veterinary Medicine (pre-clinical)', irrespective of the Tripos examination for which they were entered in their final year with the exception of Table UG_HC_03i, which gives a breakdown of numbers by the actual Tripos read.

7. Postgraduate headcount tables

7.1. Categories of students included or excluded from these tables

The postgraduate tables include data for all matriculated students on postgraduate-level courses.

Part-time students studying at the Institute of Continuing Education and the Cambridge Programme for Sustainability Leadership as well as on the Faculty of Education INSET (In-Service Education and Training) courses are excluded from postgraduate headcount tables. However, an estimate of FTE load for Faculty of Education INSET students is included in the FTE load tables.

Visiting ERASMUS exchange and other visiting students are excluded from most postgraduate headcount tables, with the exception of Table PG_HC_13.

Postgraduate students who have completed the minimum requirements of their course, i.e. are recorded as 'writing up/under exam', are reported in a single, separate category, regardless of whether their mode of study prior to writing up was full-time or part-time.

Students reading the Diploma in Theology and Religious Studies are included in the postgraduate tables for all years except 2009-10, when they were included in the undergraduate tables. The diploma is undergraduate in level but requires a previous first degree with honours as a pre-requisite for the course.

7.2. Doctorate and Master level courses

The level of study reported for postgraduate degrees is as follows:

- Doctorate level: Ph.D., Eng.D., probationary Ph.D. and C.P.G.S.
- Masters level: M.Litt., M.Sc., M.Phil., M.Res., M.St., M.Ed., M.B.A., Executive M.B.A., M.Fin., LL.M., M.A.St., M.Mus., P.G.C.E. and various postgraduate-level Diplomas.

All doctorate-level courses are research courses and are presented together in the same tables. Masters-level courses are presented in separate tables depending on whether the course is classified as 'research' or as 'taught' (see Appendix 4 for details).

Most students studying for a Ph.D. or Eng.D. qualification are required to complete a probationary year, and are initially registered either for the Certificate of Postgraduate Study (C.P.G.S.) or for a probationary Ph.D. For further information about routes to the Ph.D. see www.admin.cam.ac.uk/univ/gsprospectus/study/research/phd.html.

7.3. Faculties/departments

Most of the postgraduate headcount tables provide a breakdown by School and Faculty/Department. Up to and including 2009-10 only one table offered a breakdown by School and Faculty/department and one table gave a breakdown by Graduate Degree Committee, which was limited to those students registered as graduate students (see note 5.2.).

The breakdown by Faculty/Department is on the basis of each course's record in CamSIS, the student record system, where all postgraduate courses are recorded as having only one owning Academic Organisation (Faculty or Department).

8. Colleges tables

New Hall has been formally renamed as Murray Edwards College in 2010-11 and appears as such in all college tables.

Non-matriculated students, who are not members of a Cambridge College, are excluded from the College tables. This includes students on courses at the Institute of Continuing Education, the Cambridge Programme for Sustainability Leadership, students reading the Certificate of Theology for Ministry and students on INSET (In-Service Education and Training) courses at the Faculty of Education.

9. Bio-demographic tables

Non-matriculated students, who are not members of a Cambridge College are excluded from the bio-demographic tables. This includes students on courses at the Institute of Continuing Education, the Cambridge Programme for Sustainability Leadership, students reading the Certificate of Theology for Ministry and students on INSET (In-Service Education and Training) courses at the Faculty of Education.

9.1. Nationality

If a student holds more than one nationality, then the nationality given as the primary nationality is reported. This differs from the HESA definition.²

Students whose nationality is recorded as the Isle of Man or Channel Islands are reported as UK nationals. Prior to 2010-11 Isle of Man and Channel Islands were listed as separate nationalities.

9.2. Domicile

Domicile is defined as the country of normal residence, i.e. the country of the student's permanent or home address prior to entry to the current programme of study. It does not necessarily equate with the definition of qualifying residence used to determine fee eligibility (see note 2.4.).

9.3. Ethnicity and disability

Ethnicity and disability data are as reported on the basis of the student's self-assessment.

10 Undergraduate examination results tables

10.1. Categories of results included or excluded

The examination results tables include only the results of the examinations leading to B.A., M.Eng., M.Math. and M.Sci. qualifications (Tripos results) and the examinations leading to M.B. and Vet.M.B. qualifications (Final M.B. and Final Vet.M.B. examination results).

All of the examination results tables exclude:

- candidates for all undergraduate-level diploma and certificate examinations;
- candidates who took examinations as candidates 'not for honours' (this category is not confined to, but includes all incoming exchange and other visiting students and Cambridge graduates reading Triposes);
- candidates for oral examinations in Modern and Medieval Languages, Asian and Middle Eastern Studies and Oriental Studies;
- candidates for the Mus.B. examination;
- candidates for the examination in Law for European Students;
- candidates who were not classed and were still awaiting a decision from the Applications Committee at the time the examination tables were produced.

² HESA instructions on how to code dual nationality are as follows: 'If dual nationality including UK, code as United Kingdom. If dual nationality including non-UK EC country, then classify with relevant EC country code. If neither UK nor EC country, then classify by either nationality.'

10.2. Census period

The tables are compiled in July 2011 and do not reflect any amendments to the results made at a later date.

10.3. Tripos system

Cambridge undergraduate courses leading to a B.A. qualification are commonly referred to as Triposes. Most Triposes are divided into 'Parts' lasting one or two years:

- in some subjects there is a two-year Part I (often divided into Part IA and Part IB) and a one-year Part II;
- in others a one-year Part I is followed by a two-year Part II;
- in Engineering, Mathematics and some science subjects there is also a further one-year Part (Part IIB or Part III) that leads to an M.Eng., M.Math. or M.Sci. qualification.

Each Part of the Tripos is self-contained, i.e., there is no averaging out of Tripos results to give an overall class for the degree awarded.

10.4. Classified and unclassified examinations

Most of the Tripos examinations are classified, i.e., the names of successful candidates are arranged in three classes, of which the second class can be divided into two divisions or can remain undivided. However, there are three Tripos examinations that are unclassified, i.e., the names of successful candidates are arranged in one class and it is noted if a candidate has passed with distinction or merit:

- Engineering Tripos Part IIB;
- Manufacturing Engineering Part II;
- Mathematical Tripos Part III.

All Parts of the Final M.B. and Final Vet.M.B. examinations are unclassified.

10.5. Other results

The heading 'Other results' in all examination result tables includes, but does not differentiate between:

- candidates who failed their Tripos examinations;
- candidates for Part II and Part III of Final M.B. examinations who failed any part of these examinations;
- candidates who have received allowances (deemed to have deserved honours (DDH) or granted an allowance towards the Ordinary degree or have been permitted to take a reduced number of examinations) by the Applications Committee of the Council. Allowances may be granted to candidates who have been ill or who have extenuating circumstances and have thus been prevented from taking an examination or whose performance has been adversely affected as a consequence.

10.6. Modern and Medieval Languages Tripos Part IA

The class obtained in each language by candidates for Part IA of the Modern and Medieval Languages Tripos has been counted as half a class. This explains why the numbers of candidates under each class division for this Tripos and in the totals might not be whole units.

10.7. Pre-clinical medical and veterinary students

Third-year pre-clinical medical and veterinary students are included under the Tripos examination for which they were entered (see note 6.3 for more details).

11 Degrees tables

11.1. Conferred degrees

Table DG_01 provides the number of degrees conferred during the previous academic year (2009–10). It does not include information about some of the qualifications that are awarded rather than conferred, for example the Postgraduate Certificate in Education (P.G.C.E.).

11.2. Approved degrees

Table DG_02 provides the number of degrees approved during the previous academic year (2009–10). Approval of the degree indicates that the candidate successfully fulfilled all academic requirements for their degree and can therefore proceed to having the degree conferred or awarded. It does not mean that the candidate has necessarily had the degree conferred or awarded – thus there is a discrepancy between the numbers given in Tables DG_01 and DG_02.

12. Further information

Questions about these tables, or the approach to the statistics, should be addressed to:

Notes on Tables TS_01 and TS_01a:

- 1) Prior to 2006-07 the data for postgraduate students were divided into 'full-time' and 'not full-time' categories. As the definition of 'not full-time' students has always been wider than the definition of 'part-time' students (see note 3.1 (page 3) on the changes of definitions over time), it is not possible to present the data for part-time postgraduate students for the years before 2006-07.
- 2) Prior to 2010-11 direct entrants to the Certificate in Advanced Study in Mathematics (C.A.S.M.), an undergraduate-level qualification, were included in the undergraduate section of the Table TS_01. In 2010-11 C.A.S.M. was replaced with two new qualifications: the M.Math qualification for students continuing from the B.A. course on an integrated masters programme and the Master in Advanced Study (M.A.St.) qualification for direct entrants. From 2010-11 students studying for the M.Math are included in the undergraduate section, but students studying the M.A.St. are included in the postgraduate section of the Table TS_01. In 2009-10 there were 140 direct entrants to the C.A.S.M. course and in 2010-11 there were 181 students on the M.A.St. course.
- 3) Postgraduate students writing up/under examination are excluded from these tables for all years.
- 4) Part-time non-matriculated students (students who are not members of a college), e.g. part-time students studying at the Institute of Continuing Education and Cambridge Programme for Sustainability Leadership and students on the Faculty of Education INSET (In-Service Education and Training) courses, are excluded from these tables for all years.
- 5) Undergraduate and postgraduate exchange and other visiting students are included in these tables for all years.
- 6) Affiliated undergraduate students and Cambridge graduates reading Triposes are included in these tables for all years.
- 7) In 2009-10 students reading the Diploma in Theology and Religious Studies (5 students) are included in the undergraduate student data, but in all other years the students on this course are included in the postgraduate section.

	POSTGRADUATES			Total

Notes on Tables TS_02 and TS_02a:

- 1) Prior to 1992-93 the data for the current intake of postgraduate students were not broken down into 'full-time' and 'not full-time' categories, therefore the data for those years are not included in these tables. Between 1992-93 and 2006-07 the data for postgraduate students were broken down into 'full-time' and 'not full-time' categories. As the definition of 'not full-time' students is wider than the definition of 'part-time' students (see note 3.1 (page 3) on the changes of definitions over time), it is not possible to present the data for part-time postgraduate students for the years before 2006-07.
- 2) Prior to 2010-11 direct entrants to the Certificate in Advanced Study in Mathematics (C.A.S.M.), an undergraduate-level qualification, were included in the undergraduate section of Table TS_02. In 2010-11 CASM was replaced with two new qualifications: the M.Math qualification for students continuing from the B.A. course on an integrated masters programme and the Master in Advanced Study (M.A.St.) qualification for direct entrants. From 2010-11 students studying for the M.Math are included in the undergraduate section, but students studying the M.A.St. are included in the postgraduate section of the Table TS_02. In 2009-10 there were 140 direct entrants to the C.A.S.M. course and in 2010-11 there were 181 students on the M.A.St. course.
- 3) For postgraduate students the current intake in these tables includes only the students who were admitted to their course in October of a given academic year and excludes the students who were admitted during the previous Lent and Easter Terms.
- 4) Postgraduate students writing up/under examination are excluded from these tables for all years.
- 5) Part-time non-matriculated students (students who are not members of a college), e.g. part-time students studying at the Institute of Continuing Education and Cambridge Programme for Sustainability Leadership and students on the Faculty of Education INSET (In-Service Education and Training) courses, are excluded from these tables for all years.
- 6) Undergraduate and postgraduate exchange and other visiting students are included in these tables for all years.
- 7) Affiliated undergraduate students and Cambridge graduates reading Triposes are included in these tables for all years.
- 8) In 2009-10 students reading the Diploma in Theology and Religious Studies (5 students) are included in the undergraduate student data, but in all other years the students on this course are included in the postgraduate section.

Notes on Tables TS_03 and TS_03a:

- 1) Prior to 2006-07 the data for postgraduate students were divided into 'full-time' and 'not full-time' categories. As the definition of 'not full-time' students has always been wider than the definition of 'part-time' students (see note 3.1 (page 3) on the changes of definitions over time), it is not possible to present the data for part-time postgraduate students for the years before 2006-07.
- 2) Prior to 2010-11 direct entrants to the Certificate in Advanced Study in Mathematics (C.A.S.M.), an undergraduate-level qualification, were included in the undergraduate section of the Table TS_03. In 2010-11 C.A.S.M. was replaced with two new qualifications: the M.Math qualification for students continuing from the B.A. course on an integrated masters programme and the Master in Advanced Study (M.A.St.) qualification for direct entrants. From 2010-11 students studying for the M.Math are included in the undergraduate section, but students studying the M.A.St. are included in the postgraduate section of the Table TS_03.
- 3) Please see note 3.5 (page 4) for details about changes in Home/Overseas distribution due to EU enlargement.
- 4) Postgraduate students writing up/under examination are excluded from these tables for all years.
- 5) Part-time non-matriculated students (students who are not members of a college), e.g. part-time students studying at the Institute of Continuing Education and Cambridge Programme for Sustainability Leadership and students on the Faculty of Education INSET (In-Service Education and Training) courses, are excluded from these tables for all years.
- 6) Undergraduate and postgraduate exchange and other visiting students are included in these tables for all years.
- 7) Affiliated undergraduate students and Cambridge graduates reading Triposes are included in these tables for all years.
- 8) In 2009-10 students reading the Diploma in Theology and Religious Studies (5 students) are included in the undergraduate student data, but in all other years the students on this course are included in the postgraduate section.

Notes on Tables TS_04, TS_04a and TS_4b:

- 1) Prior to 1992-93 the data for the current intake of postgraduate students were not broken down into 'full-time' and 'hot full-time' categories, therefore the data for those years are not included in these tables. Between 1992-93 and 2006-07 the data for postgraduate students were broken down into 'full-time' and 'hot full-time' categories. As the definition of 'hot full-time' students is wider than the definition of 'part-time' students (see note 3.1 (page 3) on the changes of definitions over time), it is not possible to present the data for part-time postgraduate students for the years before 2006-07.
- 2) Prior to 2010-11 direct entrants to the Certificate in Advanced Study in Mathematics (C.A.S.M.), an undergraduate-level qualification, were included in the undergraduate section of the Table TS_04. In 2010-11 C.A.S.M. was replaced with two new qualifications: the M.Math qualification for students continuing from the B.A. course on an integrated masters programme and the Master in Advanced Study (M.A.St.) qualification for direct entrants. From 2010-11 students studying for the M.Math are included in the undergraduate section, but students studying the M.A.St. are included in the postgraduate section of the Table TS_04. In 2009-10 there were 140 direct entrants to the C.A.S.M. course and in 2010-11 there were 181 students on the M.A.St. course.
- 3) For postgraduate students the current intake in these tables includes only the students who were admitted to their course in October of a given academic year and excludes the students who were admitted during the previous Lent and Easter Terms.
- 4) Please see note 3.5 (page 4) for details about changes in Home/Overseas distribution due to EU enlargement.
- 5) Postgraduate students writing up under examination are excluded from these tables for all years.
- 6) Part-time non-matriculated students (students who are not members of a college), e.g. part-time students studying at the Institute of Continuing Education and Cambridge Programme for Sustainability Leadership and students on the Faculty of Education INSET (In-Service Education and Training) courses, are excluded from these tables for all years.
- 7) Undergraduate and postgraduate students and other visiting students are included in these tables for all years.
- 8) Affiliated undergraduate students and Cambridge graduates reading Triposes are included in these tables for all years.
- 9) In 2009-10 students reading the Diploma in Theology and Religious Studies (5 students) are included in the undergraduate student data, but in all other years the students on this course are included in the postgraduate section.

Notes on Tables TS_05 and TS_06:

* This column presents the sum of the load for matriculated students in the 'Total' column plus the load for part-time students at the Institute of Continuing Education or on INSET (In-Service Education and Training) courses at the Faculty of Education. Up to and including 2007-08 the 'Total with ICE and FOE' postgraduate column also includes the load for students on the Master of Education (M.Ed.) course. From 2008-09, the M.Ed. student load is included in the main part of the Tables TS_05 and TS_06. The totals in Tables TS_05 and TS_06 for the academic years 2008-09 and 2009-10 therefore differ from the totals in the equivalent tables (ALL04 and ALL05) in previous Student Statistics publications, which excluded M.Ed. load from the totals for those years.

- 1) See the notes 3.3 and 3.4 (pages 3-4) for details about changes in FTE calculations over time.
- 2) See Appendix 3 (pages 136-138) for definition of Arts-based and Science-based cost centres.
- 3) Students following part-time courses at the Cambridge Programme for Sustainability Leadership are excluded from these tables for all years.
- 4) Students reading the Certificate in Theology for Ministry are included in the undergraduate section of these tables for all years.

Key to abbreviations used in Table TS_07:

- CSAH Council of the School of Arts and Humanities
- CSHSS Council of the School of Humanities and Social Sciences
- CSPS Council of the School of Physical Sciences
- CST Council of the School of Technology
- CSBS Council of the School of Biological Sciences
- CSCM Council of the School of Clinical Medicine

Notes on Table TS_07:

- 1) See the notes 3.3 and 3.4 (pages 3-4) for details about changes in FTE calculations over time.
- 2) FTE load for students assigned to the Natural Sciences Tripos Committee, Institute of Continuing Education and non-University institutions are not included here – see Table FTE_01 for the student load for these institutions.
- 3) Students following part-time courses at the Cambridge Programme for Sustainability Leadership are excluded from this table.
- 4) Students reading for Certificate in Theology for Ministry are included under CSAH column of the undergraduate section of these tables for all years.

Unattached to a school**Notes on Table FTE_01:**

- 1) Students following part-time courses at the Cambridge Programme for Sustainability Leadership are excluded from this table.
- 2) Visiting ERASMUS postgraduate students and other visiting postgraduate students are excluded from this table.
- 3) Load for students reading the Certificate in Theology for Ministry is included under the Faculty of Divinity.
- 4) Undergraduate students reading Modern and Medieval Languages, Asian and Middle Eastern Studies and Oriental Studies, who are working/studying on a compulsory year abroad, have a load of 0.5 FTE.
- 5) Undergraduate students reading the Law Double Matrise, who are studying in Paris, have zero load.
- 6) The total load for students on the Graduate Medical Course is placed under the heading 'Graduate Medical Course' (i.e., not under individual departments).

FTE_02: Undergraduate full-time equivalent (FTE) student load by academic cost centre by gender, 2010-11

Notes on Tables FTE_02 and FTE_03:

- 1) Non-matriculated students on part-time courses at the Institute of Continuing Education are excluded from these tables.
- 2) The load for students reading the Certificate of Theology in Ministry is included in these tables.
- 3) The load for undergraduate exchange and other visiting students is included in these tables.
- 4) Undergraduate students reading Modern and Medieval Languages, Asian and Middle Eastern Studies and Oriental Studies, who are working/studying on a compulsory year abroad, have a load of 0.5 FTE.
- 5) Undergraduate students reading Law Double Maîtrise, who are studying in Paris, have zero load.
- 6) The 'Home' category in Table FTE_03 includes students with Home, EU and Islands fee eligibility.

FTE_04: Postgraduate full-time equivalent (FTE) student load by academic cost centre by gender, 2010-11

Key to abbreviations used in Table FTE_06:

UG - Undergraduates

PGT - Postgraduates taught

PGR - Postgraduates research

Notes on Table FTE_06:

* These columns represents the overall assumed number of registrations or load for the academic year 2010–11, taking into account non-completions and registrations after 1 December.

** Courses are classified as 'long' if students are normally required to attend for 45 weeks or more within the year.

1) Students are allocated to faculties and departments according to an agreed formula. Faculties and departments are allocated to cost centres in accordance with instructions provided by HEFCE (see Appendix 3). Cost centres are then allocated to the various price groups in accordance with HEFCE rules.

Overseas students total	515	643	47	1	1	3	25	1,235

Notes on Table UG_HC_01:

Following introduction of the variable tuition fees in the academic year 2006-07, fee band tables now include students:

- a) paying the University composition fee at the rate appropriate for students who started courses before October 2006 or who deferred entry to October 2007 under the heading '1997' paying the higher rate of fee for new entrants in and after October 2006 under the heading '2006 fees'.

* The 'Home/EU ELQ fee' is a higher rate of fee charged to some Home/EU and Islands students studying for a qualification that is equal or lower to a qualification already held.

** 'Home/EU Co-funded fee' is a rate of fee charged to some Home/EU and Islands students on courses for which the University receives part-funding from employers.

*** Incoming and outgoing ERASMUS students as well as incoming students on MIT and NUS exchange programmes do not pay fees. Prior to 2010-11 these students were excluded from fee band tables.

For both students the change of the fee rate from Overseas to Home has been confirmed by their college; their overall fee eligibility remains Overseas.

In 2010-11 students who were spending a year abroad as part of the arrangement for their Asian and Middle Eastern Studies/Oriental Studies, Law or Modern and Medieval Languages course were liable to pay 50% of the Home rate of composition fees regardless of their overall fee eligibility.

Notes on Table UG_HC_03:

* Student numbers are split across subject headings for courses that are in a state of transition: earlier cohorts read the Oriental Studies or Oriental Studies Combined Triposes, but later cohorts read the Asian and Middle Eastern Studies Tripos. Similarly, earlier cohorts read the Education Studies Tripos and later cohorts read the Education Tripos with a specialist subject. Subject headings for courses in a state of transition are ordered on adjacent rows, rather than alphabetically.

** Students admitted to read Chemical Engineering initially read either Engineering or Natural Sciences in their first year and proceed to read Chemical Engineering in subsequent years. They are recorded under the respective headings 'Chemical Engineering via Engineering' and 'Chemical Engineering via Natural Sciences'. Students who are not admitted to read Chemical Engineering, but later transfer from another Tripos or students who directly enter Part IIA of the Chemical Engineering Tripos (i.e. affiliated students or Cambridge graduates reading Triposes) are recorded under the heading 'Chemical Engineering'.

1) Incoming exchange and other visiting students are excluded from this table.

Notes on Tables UG_HC_03i and UG_HC_03ii:

* Student numbers are split across subject headings for courses that are in a state of transition: earlier cohorts read the Oriental Studies or Oriental Studies Combined Triposes, but later cohorts read the Asian and Middle Eastern Studies Tripos. Similarly, earlier cohorts read the Education Studies Tripos and later cohorts read the Education Tripos with a specialist subject. Subject headings for courses in a state of transition are ordered on adjacent rows, rather than alphabetically.

** Students admitted to read Chemical Engineering initially read either Engineering or Natural Sciences in their first year and proceed to read Chemical Engineering in subsequent years. They are recorded under the respective headings 'Chemical Engineering via Engineering' and 'Chemical Engineering via Natural Sciences'.

Students who are not admitted to read Chemical Engineering, but later transfer from another Tripos or students who directly enter Part IIA of the Chemical Engineering Tripos (i.e. affiliated students or Cambridge graduates reading Triposes) are recorded under the heading 'Chemical Engineering'.

1) Incoming exchange and other visiting students are excluded from these tables.

2) Table UG_HC_03i provides a breakdown of subjects for pre-clinical medical and veterinary students (see note 6.3 on page 6). In all other subject tables these students are included under the respective headings 'Medicine (Pre-clinical)' and 'Veterinary Medicine (Pre-clinical)'.

3) Table UG_HC_03ii provides a breakdown of subjects for mature students, i.e., students who were 21 years of age or more when they were admitted to their course.

4) Medical and veterinary students obtain a B.A. for the pre-clinical part of their course and are recorded as a new admission when they enrol on the clinical part of their course. Therefore for these students age at time of admission indicates the age when students started clinical part of their course, not the age at the time of admission to their pre-clinical course.

5) The 'Previous degree' category in Table UG_HC_03ii includes all affiliated students, Cambridge graduates reading triposes, medical and veterinary students on the clinical part of their course and students reading the Graduate Course in Medicine. It also includes students reading the B.Th. who had already obtained a previous Higher Education degree at the time of admission to the B.Th.

6) Table UG_HC_03ii does not include 3 affiliated students (2 reading the Economics Tripos and 1 reading the Politics, Psychology, and Sociology Tripos) who were less than 21 years of age at the time of admission to their course.

They are recorded under the respective headings 'Chemical Engineering via Engineering' and 'Chemical Engineering via Natural Sciences'. Students who are not admitted to read Chemical Engineering, but later transfer from another Tripos or students who directly enter Part IIA of the Chemical Engineering Tripos (i.e. affiliated students or Cambridge graduates reading Triposes) are recorded under the heading 'Chemical Engineering'.

1) Incoming exchange and other visiting students are excluded from this table.

Notes on Tables UG_HC_05i and UG_HC_05a:

- 1) The 'Other formal exchange schemes' category includes students who participate in the MIT and NUS exchange programmes.
- 2) In Table UG_HC_05i undergraduate students reading the Law Double Maitrise, who are studying in Paris, are recorded under the heading 'ERASMUS exchange scheme' if they are on the LLP ERASMUS exchange programme, otherwise they are recorded under the heading 'Outgoing students not on an exchange scheme'.

Total %	30.4%	30.2%	30.0%	9.1%	0.2%	100.0%

Notes on Table UG_HC_07:

* Student numbers are split across subject headings for courses that are in a state of transition: earlier cohorts read the Oriental Studies or Oriental Studies Combined Triposes, but later cohorts read the Asian and Middle Eastern Studies Tripos. Similarly, earlier cohorts read the Education Studies Tripos and later cohorts read the Education Tripos with a specialist subject. Subject headings for courses in a state of transition are ordered on adjacent rows, rather than alphabetically.

** Students admitted to read Chemical Engineering initially read either Engineering or Natural Sciences in their first year and proceed to read Chemical Engineering in subsequent years. They are recorded under the respective headings 'Chemical Engineering via Engineering' and 'Chemical Engineering via Natural Sciences'. Students who are not admitted to read Chemical Engineering, but later transfer from another Tripos or students who directly enter Part IIA of the Chemical Engineering Tripos (i.e. affiliated students or Cambridge graduates reading Triposes) are recorded under the heading 'Chemical Engineering'.

1) Incoming exchange and other visiting students are excluded from this table.

2) 'Year of study' relates to the number of years, excluding any periods of intermission, that a student has attended their current course from the time of admission and does not necessarily correspond to the year of the programme. Medical and veterinary students who have kept one to three terms since being admitted to the clinical part of their course are recorded as 'Year 1' even though they are on the fourth year of their programme.

UG_HC_08: Undergraduate student numbers by source of fees by fee eligibility, 2010-11

Notes on Table PG_HC_01:

* Most students studying for a Ph.D. or Eng.D. qualification are required to complete a probationary year and are initially registered either for the Certificate of Postgraduate Study (C.P.G.S.) or for a probationary Ph.D. (NOTAF). This column shows the number of students on a probationary year for each faculty/department and is a subset of the 'Total' column.

1) Doctorate-level students include matriculated full-time and part-time students reading for the Ph.D., Eng.D., probationary Ph.D. and C.P.G.S.

2) Visiting ERASMUS exchange and other visiting postgraduate students are excluded from this table.

PG_HC_02: Doctorate-level postgraduate students admitted to their current course in the previous twelve months by School by Faculty/Department by mode of study by gender, 2010-11

Notes on Table PG_HC_04:
 * Most students studying for a Ph.D. or Eng.D. qualification are required to complete a probationary year, and are initially registered either for the Certificate of Postgraduate Study (C.P.G.S.) or for a probationary Ph.D. (NOTAF). This column shows the number of students on a probationary year for each faculty/department and is a subset of the 'Total' column.

1) Doctorate-level students include matriculated full-time and part-time students reading for the Ph.D., Eng.D., probationary Ph.D. and C.P.G.S.

2) Visiting ERASMUS exchange and other visiting postgraduate students are excluded from this table.

3) Current intake includes students admitted to their current course in the twelve months preceding the 1 December.

4) The 'Home/Islands' category includes 4 full-time students with Island fee eligibility (1 student each at the Faculty of History, Institute of Astronomy, Department of Chemistry and Department of Physics).

Total % (gender)									

Notes on Table COL_HC_07:

- 1) Incoming exchange and other visiting students are excluded from this table.
- 2) Mature students are defined as students who were aged 21 or over at the time of admission.
- 3) Medical and veterinary students obtain a B.A. for the pre-clinical part of their course and consequently they are recorded as a new admission when they enrol on the clinical part of their course. Therefore for these students age at time of admission indicates the age when students started clinical part of their course, not the age at the time of admission to their pre-clinical course. Thus a significant number of medical and veterinary students starting the clinical part of their course will be defined as being mature students.
- 4) The 'Previous degree' category includes all affiliated students, Cambridge graduates reading triposes, medical and veterinary students on the clinical part of their course and students reading the Graduate Course in Medicine. It also includes students reading the B.Th. who had already obtained a previous Higher Education degree at the time of admission to the B.Th.
- 5) This table does not include 3 affiliated students (St Edmund's) who were less than 21 years of age at the time of admission to their course.

* Denotes Commonwealth countries.

- 1) Students whose nationality is recorded as the Isle of Man or Channel Islands are reported as UK nationals.
- 2) If a student holds more than one nationality, then the nationality given as the primary nationality is reported.
- 3) Postgraduates writing up/under examination are excluded from this table.
- 4) Incoming exchange and other visiting students are excluded from this table.

Notes on Tables BIO_15 and BIO_16:

- 1) Disability data are as reported on the basis of the student's self-assessment.
- 2) The numeric codes and descriptions of disability categories are as defined by the Higher Education Statistical Agency (HESA).
- 3) In 2010-11 HESA introduced an updated list of disability categories with new numeric codes. As disability categories are reported on the basis of students' self-assessment, the old categories (02-11) are reported for students who have not updated their disability data since October 2010.

Notes on Tables BIO_17 and BIO_18:

- 1) Disability data are as reported on the basis of the student's self-assessment.
- 2) The numeric codes and descriptions of disability categories are as defined by the Higher Education Statistical Agency (HESA).
- 3) In 2010-11 HESA introduced an updated list of disability categories with new numeric codes. As disability categories are reported on the basis of students' self-assessment, the old categories (02-11) are reported for students who have not updated their disability data since October 2010.
- 4) Postgraduates writing up/under examination are excluded from these tables.
- 5) Incoming exchange and other visiting students are excluded from these tables.

Notes on Tables BIO_19 and BIO_20:

- 1) Disability data are as reported on the basis of the student's self-assessment.
- 2) The numeric codes and descriptions of disability categories are as defined by the Higher Education Statistical Agency (HESA).
- 3) In 2010-11 HESA introduced an updated list of disability categories with new numeric codes. As disability categories are reported on the basis of students' self-assessment, the old categories (02-11) are reported for students who have not updated their disability data since October 2010.
- 4) Postgraduate writing up/under examination are excluded from these tables.
- 5) Postgraduate ERASMUS exchange and other visiting students are excluded from these tables.
- 6) The UK-domiciled category includes students domiciled in England, Scotland, Wales, Northern Ireland, Isle of Man and Channel Islands.

Notes on Tables BIO_21 and BIO_22:

- 1) Part-time postgraduate students are excluded from these tables as the type of term-time accommodation for these students is not collected.
- 2) Postgraduates writing up/under examination are excluded from these tables.
- 3) Incoming exchange and other visiting students are excluded from these tables.
- 4) In Table BIO_22 the UK-domiciled category includes students domiciled in England, Scotland, Wales, Northern Ireland, Isle of Man and Channel Islands.

Notes on Tables BIO_23 and BIO_24:

- 1) Medical and veterinary students obtain a B.A. for the pre-clinical part of their course and consequently they are recorded as a new admission when they enrol on the clinical part of their course. Therefore for these students age at time of admission shown in Table BIO_24 indicates the age when students started clinical part of their course, not the age at the time of admission to their pre-clinical course.
- 2) The 'Previous degree' category includes all affiliated students, Cambridge graduates reading triposes, medical and veterinary students on the clinical part of their course and students reading the Graduate Course in Medicine. It also includes students reading the B.Th. who had already obtained a previous Higher Education degree at the time of admission to the B.Th.
- 3) Incoming exchange and other visiting students are excluded from these tables.

Notes on Table EXM_01:

* These courses are in a state of transition and therefore Tripos results are shown under two headings: 'Asian and Middle Eastern Studies' and 'Oriental Studies', and 'Education' and 'Education Studies'.

** The last parts of these Triposes (Part III of the Mathematical Tripos, Part II of the Manufacturing Engineering Tripos and Part IIB of the Engineering Tripos) are unclassified and are therefore excluded from this table. See Table EXM_03 for the results of these Triposes.

1) The class obtained in each language by candidates for Part IA of the Modern and Medieval Languages Tripos has been counted as half a class, thus the numbers of candidates in some class categories for this Tripos and in the totals are not whole units.

2) Third-year pre-clinical medical and veterinary students are included under the Tripos examination for which they were entered.

Notes on Table EXM_02:

* These courses are in a state of transition and therefore Tripos results are shown under two headings: 'Asian and Middle Eastern Studies', and 'Education' and 'Education Studies'.

** The last parts of these Triposes (Part III of the Mathematical Tripos, Part II of the Manufacturing Engineering Tripos and Part IIB of the Engineering Tripos) are unclassified and are therefore excluded from this table. See Table EXM_04 for the results of these Triposes.

1) The class obtained in each language by candidates for Part IA of the Modern and Medieval Languages Tripos has been counted as half a class, thus the numbers of candidates in some class categories for this Tripos and in the totals are not whole units.

2) Third-year pre-clinical medical and veterinary students are included under the Tripos examination for which they were entered.

Total	79	30.3%	14	27.5%	117	44.8%	21	41.2%	61	23.4%	16	31.4%	4	1.5%	261	83.7%	51	16.3%		

Notes on Tables EXM_03 and EXM_04:

1) In 2011 there were fewer candidates for Part III of the Mathematical Tripos compared to previous years due to the fact that this examination is now available only for students aiming for a Master in Mathematics qualification as part of an Integrated Masters programme whilst direct entry students now aim for a postgraduate Master in Advanced Study.

EXM_06: Number of students deemed to have obtained honours whilst studying abroad by gender, 2011

	Men		Women		Total	
	No.	%	No.	%	No.	%
	Chemical Engineering student at M.I.T.	1	50.0%	1	50.0%	2
Economics student at M.I.T.	1	100.0%	-	-	1	
Engineering student at M.I.T.	7	77.8%	2	22.2%	9	
Engineering student at National University of Singapore	2	100.0%	-	-	2	
Engineering student at Paris Ecole	2	100.0%	-	-	2	
Law student at Paris II (Fourth year)	6	35.3%	11	64.7%	17	
Mathematical student at M.I.T.	1	100.0%	-	-	1	
Natural Sciences student at M.I.T.	5	71.4%	2	28.6%	7	
Total	25	61.0%	16	39.0%	41	

Notes on Tables EXM_05 and EXM_06:

- 1) 'Other results' category in Table EXM_05 includes candidates for Part II and Part III of the Final M.B. Examination who failed to pass one or more of the components of those Parts.
- 2) Table EXM_06 provides the results for students who have spent the year studying at the Massachusetts Institute of Technology, National University of Singapore, Ecole Centrale Paris or studying in Paris as part of the Law Double Matrise qualification.

Section 9

Degrees tables

<i>Table no.</i>	<i>Description</i>	<i>Page</i>
DG_01	Number of degrees conferred, 2009-10	130
DG_02	Number of degrees approved, 2009-10	131

DG_01: Number of degrees conferred, 2009–10

Doctor of Divinity	1
Doctor of Medicine	12
Doctor of Science	8
Doctor of Letters	9
Doctor of Philosophy	1058
Master of Law	159
Master of Science	5
Master of Letters	3
Master of Philosophy	1248
Master of Engineering	281
Master of Business Administration	137
Master of Finance	19
Master of Education	185
Master of Natural Sciences	244
Master of Studies	112
Master of Surgery	1
Bachelor of Medicine	137
Bachelor of Surgery	146
Bachelor of Veterinary Medicine	63
Bachelor of Arts	3259
Bachelor of Theology for Ministry	20
Bachelor of Music	4
Total	7110

Notes on Table DG_01:

1) This table does not include information about some of the qualifications that are awarded rather than conferred, for example the Postgraduate Certificate in Education (P.G.C.E.).

DG_02: Number of degrees approved, 2009-10

Doctor of Philosophy	1085
Certificate of Postgraduate Study	14
Master of Letters	4
Master of Science	5
Master of Philosophy	1373
Master of Studies	122
Master of Education	181
Master of Law	160
Master of Business Administration	147
Master of Finance	23
Postgraduate Certificate of Education	421
Graduate Diploma	27
Diploma	7
Certificate of Advanced Study in Mathematics	209
Master of Engineering	282
Master of Natural Sciences	248
Bachelor of Arts	3087
Bachelor of Surgery	146
Bachelor of Veterinary Medicine	56
Bachelor of Theology for Ministry	22
Bachelor of Music	1
Total	7620

Notes on Table DG_02:

1) Approval of the degree indicates that the candidate successfully fulfilled all academic requirements for their degree and can therefore proceed to having the degree conferred or awarded. It does not mean that the candidate has necessarily had the degree conferred or awarded – thus there is a discrepancy between the numbers given in Tables DG_01 and DG_02.

Appendix 1 Changes to 2010-11 tables

2010-11 tables	Corresponding previous years' tables	Notes on changes
Time series tables		
TS_01	ALL01	Chart has been removed; otherwise table has not been changed.
TS_01a	-	New table has been introduced to provide time series data on part-time student numbers broken down by gender.
TS_02	-	New table has been introduced to provide time series data on full-time current intake student numbers broken down by gender.
TS_02a	-	New table has been introduced to provide time series data on part-time current intake student numbers broken down by gender.
TS_03	ALL02	No change.
TS_03a	-	New table has been introduced to provide time series data on part-time student numbers broken down by fee eligibility.
TS_04	ALL03	Full-time student sub-section of this table has been extracted into a separate table TS_04a.
TS_04a	Part of ALL03	Sub-section of the old ALL03 table.
TS_04b	-	New table has been introduced to provide time series data on part-time current intake student numbers broken down by fee eligibility.
TS_05	ALL04	Non-matriculated student load totals have been moved to a separate column of the main table.
TS_06	ALL05	Non-matriculated student load totals have been moved to a separate column of the main table.
TS_07	ALL08	Charts ALL09-11 have been removed, the formatting of the table has been changed in such a way that year variable appears as rows and School variable appear as columns.
Load tables		
FTE_01	DL01	The order in which Schools are listed has been revised to make it uniform throughout the publication.
FTE_02	UG16	No change.
FTE_03	UG17	No change.
FTE_04	PG14	Students on Faculty of Education INSET (In-Service Education and Training) courses have been excluded.
FTE_05	PG15	Same change has been made as for the Table FTE_04.
FTE_06	ALL07	No change.
Student numbers tables		
ALL_HC_01	UG01, UG01a, PG01	<ul style="list-style-type: none"> Non-matriculated courses have been included. 'Graduate reading triposes and other students' category has been split to present visiting students and Cambridge graduates reading triposes separately. Visiting postgraduate students have been split into several categories (PGR/PGT, ERASMUS/other visiting

		<p>students).</p> <ul style="list-style-type: none"> All MPhil courses have been combined into 2 categories: research MPhil and taught MPhil. All CPGS courses have been combined into 1 category. MSt courses have been broken down into 2 categories depending on whether they are research or taught. Diploma in Theology and Religious Studies have been moved to postgraduate section (it was included in the undergraduate tables in 2009-10). Full-time and part-time graduate students writing up/under exam have been combined. Affiliated students have been listed in a separate row in the undergraduate section. Several extra subtotals have been added to give breakdown with and without visiting student, breakdown of research and taught postgraduate students etc.
ALL_HC_02	UG02, PG02, PG02a	Same changes have been made as for the Table ALL_HC_01.
Undergraduate tables		
UG_HC_01	UG03a	<ul style="list-style-type: none"> 'Graduate reading triposes and other students' category has been split to present visiting students and Cambridge graduates reading triposes separately. Affiliated students have been listed in a separate row in the undergraduate section. Incoming and outgoing ERASMUS exchange students and incoming students on other exchange schemes (MIT, NUS) have been included but shown in a separate 'No fees' column.
UG_HC_02	UG04a	Same changes have been made as for the Table UG_HC_02.
UG_HC_03	UG07i	<ul style="list-style-type: none"> Incoming exchange and other visiting students have been excluded. Diploma in Theology and Religious Studies has been moved to postgraduate section. Education Tripos options have been presented separately. 3 and 4 year Classics courses have been presented separately. 'Graduate Medical Course' recoded to 'Medicine (Graduate Course)'. Percentage columns have been removed.
UG_HC_03i	UG07ii	Incoming exchange and visiting students have been excluded.
UG_HC_03ii	UG19	<ul style="list-style-type: none"> Incoming exchange and other visiting students have been excluded. Breakdown has been changed from 'Undergraduates vs. Affiliated students' to 'Students without a previous undergraduate degree vs. Students with a previous undergraduate degree'. Clinical Medicine and Veterinary Medicine students and students on the Graduate Medical course have been included and are counted as having a previous undergraduate degree. Diploma in Theology and Religious Studies has been moved to postgraduate section. Percentage columns have been removed.
UG_HC_03iii	UG07c-d	<ul style="list-style-type: none"> Two tables have been combined together. Exchange schemes other than ERASMUS have been combined together.

UG_HC_03a	UG07a-b	<ul style="list-style-type: none"> Students who are studying abroad but are not on any exchange programme have been added. Two tables have been combined together. Exchange schemes other than ERASMUS have been combined together. Visiting students who are not on any exchange programme have been added.
UG_HC_04	UG10a-c	<ul style="list-style-type: none"> Incoming exchange and other visiting students have been excluded. Clinical Medicine and Veterinary Medicine students and students on the Graduate Medical course have been incorporated into the main table. Diploma in Theology and Religious Studies has been moved to postgraduate section. Percentage columns have been removed.
UG_HC_05	UG08	Same changes have been made as for the Table UG_HC_03.
UG_HC_05i	-	New table has been introduced to provide the breakdown of outgoing exchange and other visiting students by exchange programme and fee eligibility.
UG_HC_05a	-	New table has been introduced to provide the breakdown of incoming exchange and other visiting students by exchange programme and fee eligibility.
UG_HC_06	UG11a-b	Same changes have been made as for the Table UG_HC_04.
UG_HC_07	UG09	<ul style="list-style-type: none"> Incoming exchange and other visiting students have been excluded. Clinical Medicine and Veterinary Medicine students, students on the Graduate Medical course and Cambridge graduates reading triposes have been included. Diploma in Theology and Religious Studies has been moved to postgraduate section. Education Tripos options have been presented separately. 3 and 4 year Classics Tripos have been presented separately Percentage columns have been removed.
UG_HC_08	UG12	The order of rows in the table has been changed and is now based on the HESA numeric codes for Source of Fees variable.
Postgraduate tables		
PG_HC_01	Part of PG01	<ul style="list-style-type: none"> Student numbers have been broken down by School and Faculty/Department. Visiting postgraduate exchange and other visiting students have been excluded. Full-time and part-time postgraduate students writing up/under exam have been combined together. New column has been added to indicate numbers of Probationary PhD/CPGS students per department. Percentage columns have been removed.
PG_HC_02	Part of PG02, PG02a	<ul style="list-style-type: none"> Student numbers have been broken down by School and Faculty/Department. Visiting postgraduate exchange and other visiting students have been excluded. Full-time and part-time postgraduate students writing up/under exam have been combined together. New column has been added to indicate numbers of Probationary PhD/CPGS students per department.

		<ul style="list-style-type: none"> Percentage columns have been removed. Tables presenting Michaelmas Term intake and Lent Term/Easter Term intake have been combined.
PG_HC_03	Part of PG03	<ul style="list-style-type: none"> Student numbers have been broken down by School and Faculty/Department. Visiting postgraduate exchange and other visiting students have been excluded. Full-time and part-time postgraduate students writing up/under exam have been combined together. New column has been added to indicate numbers of Probationary PhD/CPGS students per department. Home and Islands categories of fee eligibility have been combined. Percentage columns have been removed.
PG_HC_04	Part of PG05, PG05i	<ul style="list-style-type: none"> Student numbers have been broken down by School and Faculty/Department. Visiting postgraduate exchange and other visiting students have been excluded. Full-time and part-time postgraduate students writing up/under exam have been combined together. New column has been added to indicate numbers of Probationary PhD/CPGS students per department. Home and Islands categories of fee eligibility have been combined. Percentage columns have been removed. Tables presenting Michaelmas Term intake and Lent Term/Easter Term intake have been combined.
PG_HC_05	Part of PG01	<ul style="list-style-type: none"> Student numbers have been broken down by School and Faculty/Department. Visiting postgraduate exchange and other visiting students have been excluded. Full-time and part-time postgraduate students writing up/under exam have been combined together. Percentage columns have been removed.
PG_HC_06	Part of PG02, PG02a	<ul style="list-style-type: none"> Student numbers have been broken down by School and Faculty/Department. Visiting postgraduate exchange and other visiting students have been excluded. Full-time and part-time postgraduate students writing up/under exam have been combined together. Percentage columns have been removed. Tables presenting Michaelmas Term intake and Lent Term/Easter Term intake have been combined.
PG_HC_07	Part of PG03	<ul style="list-style-type: none"> Student numbers have been broken down by School and Faculty/Department. Visiting postgraduate exchange and other visiting students have been excluded. Full-time and part-time postgraduate students writing up/under exam have been combined together. Percentage columns have been removed.
PG_HC_08	Part of PG05, PG05i	<ul style="list-style-type: none"> Student numbers have been broken down by School and Faculty/Department. Visiting postgraduate exchange and other visiting students have been excluded. Full-time and part-time postgraduate students writing up/under exam have been combined together. Home and Islands categories of fee eligibility have been combined.

		<ul style="list-style-type: none"> Percentage columns have been removed. Tables presenting Michaelmas Term intake and Lent Term/Easter Term intake have been combined.
PG_HC_09	Part of PG01	Same changes have been made as for the Table PG_HC_05.
PG_HC_10	Part of PG02, PG02a	Same changes have been made as for the Table PG_HC_06.
PG_HC_11	Part of PG03	Same changes have been made as for the Table PG_HC_07.
PG_HC_12	Part of PG05, PG05i	Same changes have been made as for the Table PG_HC_08.
PG_HC_13	PG03	<ul style="list-style-type: none"> All individual courses presented separately, not just MPhils. Visiting postgraduate exchange and other visiting students have been excluded. Full-time and part-time postgraduate students writing up/under exam have been combined together. Home and Islands categories of fee eligibility have been combined. Percentage columns have been removed.
PG_HC_14	PG05, PG05i	<ul style="list-style-type: none"> All individual courses presented separately, not just MPhils. Visiting postgraduate exchange and other visiting students have been excluded. Full-time and part-time postgraduate students writing up/under exam have been combined together. Home and Islands categories of fee eligibility have been combined. Percentage columns have been removed. Tables presenting Michaelmas Term intake and Lent Term/Easter Term intake have been combined.
PG_HC_15	PG09	The order of rows in the table has been changed and is now based on the HESA numeric codes for Source of Fees variable.
		Colleges tables
COL_HC_01	-	New table has been introduced to give a breakdown of all matriculated students by college whilst presenting visiting students and postgraduates writing up/under exam in separate columns.
COL_HC_02	-	New table has been introduced to give a breakdown of all matriculated students admitted in the previous 12 months by college whilst presenting visiting students and postgraduates writing up/under exam in separate columns.
COL_HC_03	UG05, PG06	<ul style="list-style-type: none"> Incoming exchange and other visiting students have been excluded. Postgraduates writing up/under exam have been excluded. A new breakdown has been introduced for postgraduates with separate columns for taught and research courses. Percentage columns have been removed.
COL_HC_04	UG05a, PG06a, PG06b	Same changes have been made as for the Table COL_HC_03.
COL_HC_05	UG06, PG07, PG08	Same changes have been made as for the Table COL_HC_03.
COL_HC_06	-	New table has been introduced to give a breakdown of all matriculated students admitted in the previous 12 months by college by type of degree by fee eligibility, excluding visiting students and postgraduates writing

COL_HC_07	UG18	up/under exam. <ul style="list-style-type: none"> Incoming exchange and other visiting students have been excluded. Breakdown has been changed from 'Undergraduates vs. Affiliated students' to 'Students without a previous undergraduate degree vs. Students with a previous undergraduate degree'. Clinical Medicine and Veterinary Medicine students and students on the Graduate Medical course have been included and are counted as having a previous undergraduate degree. Diploma in Theology and Religious Studies has been moved to postgraduate section. Percentage columns have been removed.
COL_HC_08	-	New table has been introduced to give a breakdown of all matriculated undergraduate students admitted in October 2010 by college by highest qualification on entry by gender, excluding visiting students and postgraduates writing up/under exam.
COL_HC_09	PG06	<ul style="list-style-type: none"> Incoming exchange and other visiting students have been excluded. Postgraduates writing up/under exam have been excluded. Percentage columns have been removed.
COL_HC_10	PG06a, PG06b	Same changes have been made as for the Table COL_HC_09.
COL_HC_11	-	New table has been introduced to give a breakdown of PGCE students by college by gender.
Bio-demographic tables		
BIO_01	-	New table has been introduced to give a breakdown of all full-time matriculated students by nationality whilst presenting visiting students and postgraduates writing up/under exam in separate columns.
BIO_02	-	New table has been introduced to give a breakdown of all part-time matriculated students by nationality whilst presenting visiting students and postgraduates writing up/under exam in separate columns. .
BIO_03	OS04, OS05	<ul style="list-style-type: none"> All exchange and other visiting students have been excluded. Postgraduate students writing up/under exam have been excluded. Home and Islands categories of fee eligibility have been combined. Percentage columns have been removed. Channel Islands and Isle of Man have been recoded as the UK nationals. Nationals of Commonwealth countries have been marked with an asterisk.
BIO_04	-	New table has been introduced to give a breakdown of part-time matriculated students by nationality, excluding visiting students and postgraduates writing up/under exam.
BIO_05	-	New table has been introduced to give a breakdown of all full-time matriculated students by domicile whilst presenting visiting students and postgraduates writing up/under exam in separate columns.
BIO_06	-	New table has been introduced to give a breakdown of all part-time matriculated students by domicile whilst presenting visiting students and postgraduates writing up/under exam in separate columns.
BIO_07	OS01, OS02, OS06	<ul style="list-style-type: none"> All exchange and other visiting students have been excluded.

		<ul style="list-style-type: none"> • Postgraduate students writing up/under exam have been excluded. • Home and Islands categories of fee eligibility have been combined. • Percentage columns have been removed. • Nationals of Commonwealth countries have been marked with an asterisk.
BIO_08	-	New table has been introduced to give a breakdown of part-time matriculated students by domicile, excluding visiting students and postgraduates writing up/under exam.
BIO_09	-	New table has been introduced to give a breakdown of all full-time matriculated students by ethnicity whilst presenting visiting students and postgraduates writing up/under exam in separate columns.
BIO_10	-	New table has been introduced to give a breakdown of all part-time matriculated students by ethnicity whilst presenting visiting students and postgraduates writing up/under exam in separate columns.
BIO_11	UG22, part of PG17	<ul style="list-style-type: none"> • All exchange and other visiting students have been excluded. • Postgraduate students writing up/under exam have been excluded. • Percentage columns have been removed.
BIO_12	Part of PG17	Same changes have been made as for the Table BIO_11.
BIO_13	-	New table has been introduced to give a breakdown of full-time matriculated students by ethnicity by UK/non-UK domicile, excluding visiting students and postgraduates writing up/under exam.
BIO_14	-	New table has been introduced to give a breakdown of part-time matriculated students by ethnicity by UK/non-UK domicile, excluding visiting students and postgraduates writing up/under exam.
BIO_15	-	New table has been introduced to give a breakdown of all full-time matriculated students by disability whilst presenting visiting students and postgraduates writing up/under exam in separate columns.
BIO_16	-	New table has been introduced to give a breakdown of all part-time matriculated students by disability whilst presenting visiting students and postgraduates writing up/under exam in separate columns.
BIO_17	UG20, part of PG16	Same changes have been made as for the Table BIO_11.
BIO_18	Part of PG16	Same changes have been made as for the Table BIO_11.
BIO_19	-	New table has been introduced to give a breakdown of full-time matriculated students by disability by UK/non-UK domicile, excluding visiting students and postgraduates writing up/under exam.
BIO_20	-	New table has been introduced to give a breakdown of part-time matriculated students by disability by UK/non-UK domicile, excluding visiting students and postgraduates writing up/under exam.
BIO_21	UG15, part of PG11	Same changes have been made as for the Table BIO_11.
BIO_22	-	New table has been introduced to give a breakdown of full-time matriculated students by term time accommodation by UK/non-UK domicile, excluding visiting students and postgraduates writing up/under exam.
BIO_23	UG13	<ul style="list-style-type: none"> • New breakdown by highest qualification on entry has been introduced. • All exchange and other visiting students have been excluded. • Percentage columns have been removed.

BIO_24	-	New table has been introduced to give a breakdown of matriculated undergraduate students by the age at the time of admission, excluding visiting students
BIO_25	PG10	<ul style="list-style-type: none"> All exchange and other visiting students have been excluded. Postgraduate students writing up/under exam have been excluded. Percentage columns have been removed.
BIO_26	PG11	Same changes have been made as for the Table BIO_25.
Examination results tables		
EXM_01	-	New table has been introduced to provide the results of all classified Tripos examinations (corresponds to Table UNI_01 in the 'Examination results statistics' publication).
EXM_02	-	New table has been introduced to provide the results of all classified Tripos examinations by gender (corresponds to Table UNI_02 in the 'Examination results statistics' publication).
EXM_03	-	New table has been introduced to provide the results of all unclassified Tripos examinations (corresponds to Table UNI_07 in the 'Examination results statistics' publication).
EXM_04	-	New table has been introduced to provide the results of all unclassified Tripos examinations by gender (corresponds to Table UNI_08 in the 'Examination results statistics' publication).
EXM_05	-	New table has been introduced to provide the results of the Final M.B. and Vet.M.B. examinations by gender (corresponds to Table UNI_10 in the 'Examination results statistics' publication).
EXM_06	-	New table has been introduced to provide the breakdown of the number of students who were deemed to have obtained honours whilst studying abroad by gender (corresponds to Table UNI_11 in the 'Examination results statistics' publication).
Degree tables		
DG_01	DG01	No change.
DG_02	-	New table has been introduced to provide a number of degrees that were approved in the previous academic year.

Appendix 2 Definition of undergraduate and postgraduate students

This list is current for 2010–11 (see *Statutes and Ordinances*).

1. Undergraduate

Students studying for the following degrees: B.A., B.Th., M.Eng., M.Sci., M.Math., Mus.B., M.B./B.Chir. and Vet.M.B.

Students reading Triposes who will not be awarded a qualification:

- incoming undergraduate students on the ERASMUS exchange scheme;
- incoming undergraduate students on the MIT exchange scheme;
- incoming undergraduate students on the NUS exchange scheme;
- other visiting students reading Triposes;
- Cambridge graduate students reading Triposes.

Non-matriculated students on undergraduate-level modular courses:

- at the Institute of Continuing Education;
- studying for the Certificate in Theology for Ministry.

2. Postgraduate

Students studying for:

- *Degrees:*
Ph.D., M.Litt., M.Sc., M.Phil., M.Res., M.St., LL.M.*, M.B.A.*, M.Ed.*, M.Fin*.
- *Diplomas:*
Economics
International Law
Legal Studies
Conservation of Easel Paintings*
Theology and Religious Studies*
- *Certificates:*
Certificate of Postgraduate Study (C.P.G.S.)
Postgraduate Certificate in Education (P.G.C.E.)*

Students registered as Probationary Ph.D.

Registered graduate students who will not be awarded a qualification:

- incoming postgraduate students on the ERASMUS exchange scheme;
- other visiting postgraduate students.

Part-time (non-matriculated) students studying at the:

- Cambridge Programme for Sustainability Leadership*;
- Faculty of Education on INSET (In-Service Education of Teachers) courses*.

* Courses for which students are not registered as graduate students (see section 5.2 of the notes).

Appendix 3 Definition of science-based and arts-based courses

The cost centre numbers and descriptions are as defined by HEFCE.

1	Science-based cost centres	Cambridge faculties, departments, etc.
(01)	Clinical Medicine*	School of Clinical Medicine Pathology
(03)	Veterinary Science*	Veterinary Medicine
(04)	Anatomy and Physiology	Physiology, Development and Neuroscience
(08)	Pharmacy and Pharmacology	Pharmacology
(10)	Biosciences	Archaeology and Anthropology (part) Biochemistry Biological Anthropology Chemical Engineering and Biotechnology (part) Experimental Psychology Genetics Plant Sciences Wellcome Trust/Cancer Research UK Gurdon Institute Zoology
(11)	Chemistry	Chemistry
(12)	Physics	Astronomy Physics
(14)	Earth, Marine and Environmental Sciences	Earth Sciences Scott Polar Research Institute
(16)	General Engineering	Engineering
(17)	Chemical Engineering	Chemical Engineering and Biotechnology (part)
(18)	Mineral, Metallurgy and Materials Engineering	Materials Science and Metallurgy
(20)	Electrical, Electronic and Computer Engineering	Computer Science and Technology (part)
(23)	Architecture, Built Environment and Planning	Architecture Architecture and History of Art (part) Land Economy
(24)	Mathematics	Applied Mathematics and Theoretical Physics Pure Mathematics and Mathematical Statistics
(25)	Information Technology and Systems Sciences	Computer Science and Technology (part)
(37)	Archaeology	Archaeology Archaeology and Anthropology (part)

* Note that pre-clinical medical and veterinary students will be recorded under the various departments responsible for delivering the courses taken.

2 <i>Arts-based cost centres</i>	<i>Cambridge faculties, departments, etc.</i>
(27) Business and Management Studies	Judge Business School
(28) Geography	Geography
(29) Social Studies	African Studies Archaeology and Anthropology (part) Criminology Development Studies Committee Economics Latin-American Studies Law Politics and International Studies Social and Developmental Psychology Social Anthropology Sociology South Asian Studies
(31) Humanities and Language-based Studies	Architecture and History of Art (part) Anglo-Saxon, Norse and Celtic Asian and Middle Eastern Studies (part) Classics Divinity English History History and Philosophy of Science Philosophy Research Centre for English and Applied Linguistics
(33) Design and Creative Arts	Music
(34) Education	Faculty of Education
(35) Modern Languages	Asian and Middle Eastern Studies (part) French German and Dutch Italian Linguistics Modern Greek Slavonic Studies Spanish and Portuguese
(41) Continuing Education	Cambridge Programme for Sustainability Leadership Institute of Continuing Education

3 *Non-University institutions*

For the purpose of calculating student load, graduate students working in the institutions listed below are allocated to the various cost centres (and subsequently to the arts/science sub-totals) on the following basis:

<i>Non-University Institution</i>	<i>Cost centre</i>
Animal Health Trust Newmarket	Veterinary Science
Babraham Institute, BBSRC	Biosciences
Biostatistics Unit, MRC	Clinical Medicine
British Antarctic Survey, NERC	Earth, Marine and Environmental Sciences
Cancer Cells Unit, MRC	Clinical Medicine
Cognition and Brain Sciences Unit, MRC	Biosciences
Cambridge Crystallographic Data Centre	Chemistry
Epidemiology Unit, MRC	Clinical Medicine
European Bioinformatics Institute	Biosciences
Human Nutrition Research, MRC	Clinical Medicine
Mitochondrial Biology Unit, MRC	Clinical Medicine
Laboratory of Molecular Biology, MRC	Clinical Medicine
Centre for Protein Engineering, MRC	Biosciences
Wellcome Trust Sanger Institute	Clinical Medicine

Appendix 4 Definition of taught and research courses

Undergraduate

All undergraduate courses are classified as *taught* according to HEFCE definitions.

Postgraduate

Degrees	R= Research T = Taught
Ph.D.	R
M.Litt.	R
M.Sc.	R
M.Phil.	R
With the following exceptions:	
<ul style="list-style-type: none"> • Archaeology • Biosciences Enterprise • Computer Speech, Text and Internet Technology • Computational Biology • Conservation of Natural Sciences Materials • Chinese Studies (2 years) • Development Studies • Engineering for Sustainable Development • English and Applied Linguistics • Environmental Policy • Finance • Industrial Systems Manufacture and Management • Land Economy Option B • Management • Micro- and Nanotechnology • Planning Growth and Regeneration • Public Health • Real Estate Finance • Statistical Science • Technology Policy • Translational Medicine and Therapeutics 	T
M.St.	R
With the following exceptions:	
<ul style="list-style-type: none"> • Applied Criminology, Penology and Management • Applied Criminology and Police Management 	T
LL.M.	T
M.B.A.	T
M.Ed.	R
M.Fin.	T
Students registered as Probationary Ph.D.	R

Diplomas	
Economics	T

International Law	R
Legal Studies	R
Conservation of Easel Paintings	T
Theology and Religious Studies	T

Certificates	
Certificate of Postgraduate Study (C.P.G.S.)	R
Postgraduate Certificate in Education (P.G.C.E.)	T

Certificate and diploma courses studied by part-time (non-matriculated) students at the Cambridge Programme for Sustainability Leadership and the Faculty of Education (INSET courses) are all ***taught***.

The following MPhil courses were reclassified from research to taught status after the 1 December census date:

- MPhil in Advanced Computer Science;
- MPhil in Economic Research;
- MPhil in Economics;
- MPhil in Innovation, Strategy and Organisation;
- MPhil in Management Science & Operations.

Since the reclassification was made after 1 December 2010 these courses are included under the 'postgraduate research' category in all tables that distinguish between taught and research courses.
