# Notes to statistical tables

# 1. Changes to 2013-14 publication

A new table, PG\_HC\_22 'Doctoral student numbers by type of course, fee eligibility, fee type, mode and year of entry, 2013-14' has been introduced to provide a breakdown of postgraduate doctoral students by year of entry to facilitate the process of fee income calculations.

#### 2. General

# 2.1. Student headcount data census date

All headcount data for matriculated students are as at 1 December 2013. This is the census date for the Higher Education Students Early Statistics Survey (HESES) returned to HEFCE.

For non-matriculated students the data are based on the previous year's HESA reporting period. (The University makes an annual return to HESA (Higher Education Statistics Agency), which provides more detailed information on individual students and covers the period 1 August of one year to 31 July in the following year.) This is because many of these students attend courses that are of less than one year in duration and it is more accurate to present their data as a count over the course of one year, rather than as a snap shot at 1 December.

# 2.2. Coverage of the tables

The following groups of students are excluded from all of the tables:

- students on non-credit bearing courses;
- students who, at the census date, are on intermission;
- students aiming for a Ph.D. by Special Regulations;
- students who are entered for an examination only, i.e., are not attending a course;
- students reading the M.Res. in Photonic Systems Development who are registered students at University College London (the course is delivered jointly by Cambridge and UCL);
- students who reported their gender as 'Other' (to ensure that individuals cannot be identified, owing to the small number of students in this category and the detailed breakdown of data by course, college and other categories).

Most of the tables with the exception of the Headline statistics and All student headcount tables do not include students who are not required to matriculate, i.e. who are not members of a Cambridge College.

Matriculation marks the formal admission of a student to membership of the University. To qualify for matriculation, a student must have been admitted to a College and, unless a Graduate Student or an Affiliated Student, must satisfy the examination requirements for matriculation. Statue B, I, 1 (a)-(d) and Chapter II of Ordinances provide a list of persons qualified to matriculate.

Students on the following courses are not required to matriculate nor be admitted as a member of a Cambridge College:

- Certificate and diploma courses delivered by the Institute of Continuing Education;
- INSET (In-Service Education and Training) courses delivered by the Faculty of Education;
- Certificate in Theology for Ministry;
- · Postgraduate Diploma in Entrepreneurship;
- Postgraduate Certificate in Sustainable Business.

# 2.3. Fee eligibility

Fee eligibility categories reported in the tables are as follows:

- Home students with qualifying residence<sup>1</sup> in the UK;
- EU students with qualifying residence in the EEA (comprises the 28 countries of the EU plus Iceland, Norway and Liechtenstein) or Switzerland;
- Islands students with qualifying residence in the Isle of Man or the Channel Islands;
- Overseas students who do not have qualifying residence in the categories above.

# 2.4. Mode of study

Students are classified as 'full-time' if they are undertaking a full-time course and are neither writing up nor under examination nor intermitting.

Students are classified as 'part-time' if they are undertaking a part-time course and are neither writing up nor under examination nor intermitting.

The 'writing up/under examination' category refers to postgraduate students who have completed the minimum requirements of their course but who have either not yet submitted their dissertation or have not yet had their degree approved. Such students are not required to be in attendance at the University.

# 2.5. Level of study

The headings 'Undergraduate/Postgraduate' in these tables are as defined by HEFCE and HESA. A complete list of courses designated 'undergraduate' or 'postgraduate' is shown in Appendix 1.

The headings 'PGT/PGR' in these tables are as defined by HEFCE and HESA. A complete list of courses designated as 'taught' or 'research' is shown in Appendix 2.

# 2.6. Current intake

Current intake for headcount tables is defined as students admitted to their course in the twelve months since the preceding 1 December census date. For postgraduate students this definition includes students admitted in the Lent, Easter and Michaelmas terms preceding the census date. However, in the time series tables the current intake is defined as students admitted to their course in September/October of the current academic year only.

Undergraduate medical and veterinary students are counted as intake students both at the point of entry to the pre-clinical part of the course and the clinical part of the course.

Postgraduate students on the 1+3 doctoral training programmes, which consist of a one-year M.Res. or M.Phil. followed by a three-year Ph.D., are counted as intake students both at the point of entry to the M.Res./M.Phil. and at the start of the Ph.D. The only exception is the

<sup>&</sup>lt;sup>1</sup> For definitions of qualifying residence for each of the fee eligibility categories please consult The Education (Fees and Awards) (England) Regulations 2007.

Table PG\_HC\_22, in which the year of entry for student on the 1+3 courses is defined as the year of entry into the M.Res./M.Phil. part of the course.

#### 3. Time series tables

# 3.1. Changes in definitions and census dates

Up to and including 1993–94, the definitions of UGC/UFC (the bodies that preceded HEFCE) have been used in cumulative tables; the figures were calculated at the UGC/UFC census date of 31 December. In and after 1994–95, HEFCE/HESA definitions have been used, and the baseline has been 1 December.

One of the areas affected by the changes in definition is the categorisation of mode of study for postgraduate students. Up to and including 1993-94 postgraduate students were classified as 'not full-time' if they were:

- undertaking a part-time course;
- either writing up or under examination;
- intermitting their course of study;
- students holding established University posts;
- research assistants financed from Research Council grants or research contracts.

Between 1995-96 and 2005-06 postgraduate students were classified as 'not full-time' if they:

- were undertaking a part-time course;
- had completed the minimum requirements of their course and were not intermitting, i.e., they were either writing up or under examination.

Between 2006-07 and 2009-10 'not full-time' category was further divided into 'full-time writing up/under exam', 'part-time' and 'part-time writing up/under exam'.

From 2010-11 categories 'full-time writing up/under exam' and 'part-time writing up/under exam' have been combined into one category 'writing up/under exam'.

The definition of 'writing up' also changed over time:

- Up to and including 2004–05, postgraduate students undertaking a full-time course were recorded as 'full-time' for the required terms of their course, and after those terms were completed, as 'not full-time'. For example, a three-year Ph.D. was recorded as 'full-time' in the first nine terms and as 'not full-time' in and after the tenth term.
- In 2005–06 and 2006–07, postgraduate students undertaking a full-time course were recorded as 'full-time' for the required terms of their course **plus one extra term**, and thereafter as 'not full-time' (defined as 'full-time writing up/under exam' in 2006–07). Thus in 2005–06, the typical three-year Ph.D. student was recorded as 'full-time' in the first ten terms and from the eleventh term onwards as 'not full-time' ('full-time writing up/under exam' in 2006–07). Since the tenth term (for most students) encompasses the 1 December census date, PhD students in their tenth term are included in the headcount as 'full-time'.
- From 2007–08, postgraduate students undertaking a full-time course are recorded as 'full-time' for the required terms of their course and as 'full-time writing up/under exam' if they have completed the required terms. Thus the typical three-year Ph.D. student is recorded

as 'full-time' in the first nine terms and from the tenth term onwards as 'full-time writing up/under exam'.

The effects of these changes in definitions are:

- In comparison to 2004–05 totals, the number of postgraduate students defined as 'full-time' in 2005–6 and 2006–07 increased.
- In comparison to 2006–07 totals, the number of postgraduate students defined as 'full-time' in 2007–08 decreased.

# 3.2. Temporal scope of time series tables

Most of the time series tables show data for the last twenty years only. For older data, please refer to previous publications or contact the Student Statistics Office (for contact details see 'Further information' below). However, for some of the tables it has not been possible to access data for the whole twenty-year period; therefore, for these tables the time series starts from the year in which a particular breakdown of the data became available.

# 3.3. Impact of European Union expansion on Home/Overseas student distribution

On 1 May 2004, the following countries were granted full EU membership: Cyprus, the Czech Republic, Estonia, Hungary, Latvia, Lithuania, Malta, Poland, Slovakia, and Slovenia. In and after 2005–06, students from those countries are classified as Home/EU, not Overseas. On 1 January 2007, Bulgaria and Romania were granted full EU membership. Students from those countries are classified as Home/EU in and after 2007–08. On 1 July 2013 Croatia acceded to the EU and Croatian students are classified as Home/EU in and after 2013-14.

# 3.4 Impact of reclassification of postgraduate courses from 'research' to 'taught'

During 2012-13 (and after the publication of 'Student Statistics 2012-13') a number of courses were reclassified:

# From PGR to PGT

- M.Phil. in Architecture and Urban Design;
- M.Phil. in Environmental Design in Architecture Option B;
- M.Phil. in Scientific Computing.

## From PGT to PGR

- M.St. in Applied Criminology, Penology and Management;
- M.St. in Applied Criminology and Police Management;
- M.St. in Sustainability Leadership.

These reclassifications lead to changes in the number of postgraduate taught and postgraduate research students for the relevant departments in comparison with the 2012-13 data.

# 4. All student headcount tables

# 4.1. Graduate and postgraduate students

Within the University of Cambridge, students enrolled on a postgraduate-level course are further divided on the basis of the student's course of study, whereby some students are registered as graduate students and others are not. Tables that present data by course of study reflect this division under the respective headings 'Graduate students' and 'Postgraduate students'.

In 2013-14 the M.Ed. course is in a state of transition, whereby the new intake students are registered as graduate students but continuing students are not. In Tables ALL\_HC\_01 students studying for the M.Ed. are grouped together in the 'Graduate students' category.

# 4.2. Affiliated students and Cambridge graduates reading triposes

'Affiliated student' is defined as a person who, before matriculation in the University of Cambridge, has received or was qualified to receive a degree from another higher education institution, and, subject to approval, is able to complete an undergraduate degree in less than the normal time required. Students who already hold a Cambridge degree are thus excluded from this definition and are recorded as 'Cambridge graduates reading triposes'. These definitions are not used by HEFCE/HESA.

# 5. Undergraduate headcount tables

# 5.1. Categories of students included

The undergraduate tables include students aiming for the following qualifications:

- B.A., M.Eng., M.Math., M.Sci., B.Th. or Mus.B.;
- Clinical Medicine (M.B.);
- Clinical Veterinary Medicine (Vet.M.B.).

The undergraduate tables also include students reading Triposes who are not aiming for a qualification because they already hold a Cambridge degree that prevents them from being awarded a B.A. These students are described in the tables as 'Cambridge graduates reading Triposes' (see note 4.2).

The undergraduate headcount tables include outgoing exchange students (ERASMUS, MIT and NUS (National University of Singapore)) and other students studying or working abroad as part of their course.

# 5.2. Categories of students excluded

Incoming exchange and other visiting students are excluded from most undergraduate headcount tables, with the exception of Tables UG\_HC\_01, UG\_HC\_02, UG\_HC\_03c, UG\_HC\_05c and UG\_HC\_10.

# 5.3. Pre-clinical medical and veterinary students

Pre-clinical medical and veterinary students read the Medical and Veterinary Sciences Tripos in years one and two, but read a different Tripos in year three. In all tables they are included under the respective headings 'Medicine (pre-clinical)' or 'Veterinary Medicine (pre-clinical)'.

irrespective of the Tripos examination for which they were entered in their final year with the exception of Tables UG\_HC\_03a and UG\_HC\_05a, which gives a breakdown of numbers by the actual Tripos read.

# 6. Postgraduate headcount tables

# 6.1. Categories of students included or excluded from these tables

The postgraduate tables include data for all matriculated students on postgraduate-level courses.

Incoming exchange and other visiting students are excluded from all postgraduate headcount tables with the exception of Table PG\_HC\_21.

Postgraduate students who have completed the minimum requirements of their course, i.e. are recorded as 'writing up/under exam', are reported in a single, separate category, regardless of whether their mode of study prior to writing up was full-time or part-time.

# 6.2. Doctorate and Master level courses

The level of study reported for postgraduate degrees is as follows:

- Doctorate level: Ph.D., Eng.D., Ed.D., M.D., probationary Ph.D. and C.P.G.S.
- Masters level: M.Litt., M.Sc., M.Phil., M.Res., M.St., M.Ed., M.B.A., Executive M.B.A., M.Fin., LL.M., M.C.L., M.A.St., M.Mus., P.G.C.E. and various postgraduate-level Diplomas.

All doctorate-level courses are research courses and are presented together in the same tables. Masters-level courses are presented in separate tables depending on whether the course is classified as 'research' or as 'taught' (see Appendix 2 for details).

Most students studying for a Ph.D. or Eng.D. qualification are required to complete a probationary year, and are initially registered either for the Certificate of Postgraduate Study (C.P.G.S.) or for a probationary Ph.D. For further information about routes to the Ph.D. see <a href="http://www.admin.cam.ac.uk/students/gradadmissions/prospec/studying/qualifdir/glossary.html/">http://www.admin.cam.ac.uk/students/gradadmissions/prospec/studying/qualifdir/glossary.html/">http://www.admin.cam.ac.uk/students/gradadmissions/prospec/studying/qualifdir/glossary.html/">http://www.admin.cam.ac.uk/students/gradadmissions/prospec/studying/qualifdir/glossary.html/">http://www.admin.cam.ac.uk/students/gradadmissions/prospec/studying/qualifdir/glossary.html/">http://www.admin.cam.ac.uk/students/gradadmissions/prospec/studying/qualifdir/glossary.html</a>

# 6.3. Faculties/departments

Most of the postgraduate headcount tables provide a breakdown by School and Faculty/Department.

The breakdown by Faculty/Department is on the basis of each course's record in CamSIS, the University's student record system, where all postgraduate courses are recorded as having only one owning Academic Organisation (Faculty, Department or Institution). Thus the breakdown does not necessarily reflect the departmental affiliation of students' supervisors.

The department/faculty list is based on the departmental structure at the census date of 1 December 2013.

# 7. Bio-demographic tables

# 7.1. Nationality

If a student holds more than one nationality, then the nationality given as the primary nationality is reported. This differs from the HESA definition.<sup>2</sup>

Students whose nationality is recorded as the 'Isle of Man' or 'Channel Islands' are reported as UK nationals.

#### 7.2. Domicile

Domicile is defined as the country of normal residence, i.e. the country of the student's permanent or home address prior to entry to the current programme of study. It does not necessarily equate with the definition of qualifying residence used to determine fee eligibility (see note 2.3.).

# 7.3. Ethnicity and disability

Ethnicity and disability data are as reported on the basis of the student's self-assessment.

#### 8. Further information

Questions about these tables, or the approach to the statistics, should be addressed to:

Student Statistics Office Planning and Resource Allocation Office The Old Schools Trinity Lane Cambridge CB2 1TT

E-mail: student.statistics@admin.cam.ac.uk

Website: http://www.admin.cam.ac.uk/offices/planning/sso/

<sup>&</sup>lt;sup>2</sup> HESA instructions on how to code dual nationality are as follows: 'If dual nationality including UK, code as United Kingdom. If dual nationality including non-UK EC country, then classify with relevant EC country code. If neither UK nor EC country, then classify by either nationality.'

See note 4.

<sup>1)</sup> Postgraduate student numbers exclude 2,196 students writing up/under examination (1,223 male students and 973 female students).

<sup>2)</sup> For non-matriculated students the data cover the HESA reporting period of 1 August 2012 to 31 July 2013.

<sup>3)</sup> The overall total includes 5 students who reported their gender as 'Other'. Data for these students are excluded from all other tables to ensure that individuals cannot be identified (owing to the small number in this category and the detailed breakdowns of data by course, college and other categories).

<sup>1)</sup> Postgraduate student numbers exclude 2,196 students writing up/under examination (1,427 Home students and 769 Overseas students).

<sup>2)</sup> The 'Home' category includes students with Home and EU fee eligibility; the 'Overseas' category includes students with Islands and Overseas fee eligibility.

<sup>3)</sup> For non-matriculated students the data cover the HESA reporting period of 1 August 2012 to 31 July 2013.

<sup>4)</sup> The overall total includes 5 students who reported their gender as 'Other'. Data for these students are excluded from all other tables to ensure that individuals cannot be identified (owing to the small number in this category and the detailed breakdowns of data by course, college and other categories).

#### Notes on Tables TS\_01 and TS\_01a:

- 1) Prior to 2006-07 the data for postgraduate students were divided into 'full-time' and 'not full-time' categories. As the definition of 'not full-time' does not equate to 'part-time' (see note 3.1 (page 3) on the changes of definitions over time), it is not possible to present the data for part-time postgraduate students for the years before 2006-07.
- 2) Prior to 2010-11 direct entrants to the Certificate in Advanced Study in Mathematics (C.A.S.M.), an undergraduate-level qualification, were included in the undergraduate section of the Table TS\_01. In 2010-11 C.A.S.M. was replaced with two new qualifications: the M.Math qualification for students continuing from the B.A. course on an integrated masters programme and the Master in Advanced Study (M.A.St.) qualification for direct entrants. From 2010-11 students studying for the M.Math are included in the undergraduate section, but students studying for the M.A.St. are included in the postgraduate section of the Table TS\_01.
- 3) Postgraduate students writing up/under examination are excluded from these tables for all years.
- 4) Non-matriculated students are excluded from these tables for all years (see note 2.2 (page 1) for the definition of non-matriculated students).
- 5) Undergraduate and postgraduate incoming exchange and other visiting students are included in these tables for all years.
- 6) Affiliated undergraduate students and Cambridge graduates reading Triposes are included in these tables for all years.
- 7) In 2009-10 students reading the Diploma in Theology and Religious Studies (5 students) were included in the undergraduate student data, but in all other years the students on this course are included in the postgraduate section.

#### Notes on Tables TS\_02 and TS\_02a:

- 1) Prior to 2006-07 the data for postgraduate students were broken down into 'full-time' and 'not full-time' categories. As the definition of 'not full-time' does not to equate to 'part-time' (see note 3.1 (page 3) on the changes of definitions over time), it is not possible to present the data for part-time postgraduate students for the years before 2006-07.
- 2) Prior to 2010-11 direct entrants to the Certificate in Advanced Study in Mathematics (C.A.S.M.), an undergraduate-level qualification, were included in the undergraduate section of Table TS\_02. In 2010-11 CASM was replaced with two new qualifications: the M.Math qualification for students continuing from the B.A. course on an integrated masters programme and the Master in Advanced Study (M.A.St.) qualification for direct entrants. From 2010-11 students studying for the M.Math are included in the undergraduate section, but students studying the M.A.St. are included in the postgraduate section of the Table TS\_02.
- 3) For postgraduate students the current intake in these tables includes only the students who were admitted to their course in October of a given academic year and excludes the students who were admitted during the previous Lent and Easter Terms (158 full-time and 86 part-time postgraduates).
- 4) Postgraduate students writing up/under examination are excluded from these tables for all years.
- 5) Non-matriculated students are excluded from these tables for all years (see note 2.2 (page 1) for the definition of non-matriculated students).
- 6) Undergraduate and postgraduate incoming exchange and other visiting students are included in these tables for all years.
- 7) Affiliated undergraduate students and Cambridge graduates reading Triposes are included in these tables for all years.
- 8) In 2009-10 students reading the Diploma in Theology and Religious Studies (5 students) are included in the undergraduate student data, but in all other years the students on this course are included in the postgraduate section.

#### Notes on Tables TS\_03 and TS\_03a:

- 1) Prior to 2006-07 the data for postgraduate students were divided into 'full-time' and 'not full-time' categories. As the definition of 'not full-time' does not equate to 'part-time' (see note 3.1 (page 3) on the changes of definitions over time), it is not possible to present the data for part-time postgraduate students for the years before 2006-07.
- 2) Prior to 2010-11 direct entrants to the Certificate in Advanced Study in Mathematics (C.A.S.M.), an undergraduate-level qualification, were included in the undergraduate section of the Table TS\_03. In 2010-11 C.A.S.M. was replaced with two new qualifications: the M.Math qualification for students continuing from the B.A. course on an integrated masters programme and the Master in Advanced Study (M.A.St.) qualification for direct entrants. From 2010-11 students studying for the M.Math are included in the undergraduate section, but students studying the M.A.St. are included in the postgraduate section of the Table TS\_03.
- 3) Please see note 3.3 (page 4) for details about changes in Home/Overseas distribution due to EU enlargement.
- 4) Postgraduate students writing up/under examination are excluded from these tables for all years.
- 5) Non-matriculated students are excluded from these tables for all years (see note 2.2 (page 1) for the definition of non-matriculated students).
- 6) Undergraduate and postgraduate incoming exchange and other visiting students are included in these tables for all years.
- 7) Affiliated undergraduate students and Cambridge graduates reading Triposes are included in these tables for all years.
- 8) In 2009-10 students reading the Diploma in Theology and Religious Studies (5 students) are included in the undergraduate student data, but in all other years the students on this course are included in the postgraduate section.

#### Notes on Tables TS\_04, TS\_04a and TS\_4b:

1) Prior to 2006-07 the data for postgraduate students were broken down into 'full-time' and 'not full-time' categories. As the definition of 'not full-time' does not equate to 'part-time' (see note 3.1 (page 3) on the changes of definitions over time), it is not possible to present the data separately for full-time and part-time postgraduate students for the years before 2006-07.

2) Fior to 2010-11 direct entrants to the Certificate in Advanced Study in Mathematics (C.A.S.M.), un undergraduate-level qualification, were included in the undergraduate section of the Table TS\_04. In 2010-11 C.A.S.M. was replaced with two new qualifications: the M.Math qualification for students continuing from the B.A. course on an integrated masters programme and the Master in Advanced Study (M.A.S.L.) qualification for direct entrants. From 2010-11 students studying for the M.Math are included in the undergraduate section, but students studying the M.A.S.L are included in the postgraduate section of the Table TS\_04.

3) For postgraduate students the current intake in these tables includes only the students who were admitted to their course in October of a given academic year and excludes the students who were admitted during the previous Lent and Easter Terms (158 full-time and 86 part-time postgraduates).

4) Please see note 3.3 (page 3) for details about changes in Home/Overseas distribution due to EU enlargement.

5) Postgraduate students writing up/under examination are excluded from these tables for all years.

6) Non-matriculated students are excluded from these tables for all years (see note 2.2 (page 1) for the definition of non-matriculated students).

7) Undergraduate and postgraduate incoming exchange and other visiting students are included in these tables for all years.

8) Affiliated undergraduate students and Cambridge graduates reading Triposes are included in these tables for all years.

9) In 2009-10 students reading the Diploma in Theology and Religious Studies (5 students) are included in the undergraduate student data, but in all other years the students on this course are included in the postgraduate section.

#### Notes on Table ALL\_HC\_01:

<sup>\*</sup> Data in the 'Writing up' column presents all postgraduate students who have completed the minimum requirements of their course and are either writing up or under exam regardless of their mode of study (full-time or part-time).

<sup>1)</sup> See Section 4 of the 'Notes to statistical tables' (page 4) for definitions of graduate vs. postgraduate students, affiliated students and Cambridge graduates reading triposes.

graduates reading triposes.
2) For non-matriculated students the data cover the HESA reporting period of 1 August 2012 to 31 July 2013. See note 2.2 (page 1) for definition of

matriculated and non-matriculated students.

3) 'PGT' refers to graduate and postgraduate students on taught courses; 'PGR' referes to graduate and postgraduate students on research courses.

<sup>4)</sup> In 2013-14 the M.Ed. course is in the state of transition, whereby the new intake students are registered as graduate students but continuing students are not. In this table all students studying for the M.Ed. are grouped together in the 'Graduate students' category.

#### Notes on Tables UG\_HC\_01 and UG\_HC\_02:

- 1) These tables include fee-paying students only. Students who pay no fees incoming and outgoing ERASMUS students as well as incoming students on MIT and NUS exchange programmes are excluded from these tables.
- 2) The 'New system' category includes students paying the University composition fee at the rate appropriate for students who started courses in and after October 2006. New system students who started their course before October 2012 are paying old regime fees, whilst new system students who started courses in and after October 2012 are paying new regime fees.

  3) The 'Old system' category includes students paying the University composition fee at the rate appropriate for students who started courses before October 2006 or who deferred entry to October 2007.
- 4) The 'ELQ' category incldues students who are paying a higher rate of fee charged to some Home/EU students studying for a qualification that is equal or lower to a qualification already held.

# Notes on Table UG\_HC\_03:

<sup>\*</sup> Human, Social, and Political Sciences (HSPS) and Psychological and Behavioural Sciences are two new Triposes with the first year of entry in 2013-14. The Archaeology and Anthropology Tripos and the Politics, Psychology, and Sociology Tripos had a last year of entry into the first year of the course in 2012-13.

<sup>\*\*</sup> Students admitted to read Chemical Engineering initially read either Engineering or Natural Sciences in their first year and proceed to read Chemical Engineering in subsequent years. They are recorded under the respective headings 'Chemical Engineering via Engineering' and 'Chemical Engineering via Natural Sciences'. Students who are not directly admitted to read Chemical Engineering, but later transfer from another Tripos or students who directly enter Part IIA of the Chemical Engineering Tripos (i.e. affiliated students or Cambridge graduates reading Triposes) are recorded under the heading 'Chemical Engineering'.

#### Notes on Table UG\_HC\_05:

<sup>\*</sup> Human, Social, and Political Sciences (HSPS) and Psychological and Behavioural Sciences are two new Triposes with the first year of entry in 2013-14. The Archaeology and Anthropology Tripos and the Politics, Psychology, and Sociology Tripos had a last year of entry into the first year of the course in 2012-13.

<sup>\*\*</sup> Students admitted to read Chemical Engineering initially read either Engineering or Natural Sciences in their first year and proceed to read Chemical Engineering in subsequent years. They are recorded under the respective headings 'Chemical Engineering via Engineering' and 'Chemical Engineering via Natural Sciences'. Students who are not directly admitted to read Chemical Engineering, but later transfer from another Tripos or students who directly enter Part IIA of the Chemical Engineering Tripos (i.e. affiliated students or Cambridge graduates reading Triposes) are recorded under the heading 'Chemical Engineering'.

<sup>1)</sup> Incoming exchange and other visiting students are excluded from this table.

#### Notes on Tables UG\_HC\_05b and UG\_HC\_05c:

- 1) The 'Other formal exchange schemes' category includes students who participate in the MIT and NUS exchange programmes.
- 2) The 'Overseas' category includes students with Islands fee eligibility.
- 3) In table UG\_HC\_05b the 'Erasmus exchange scheme' category includes students on a work placement.
- 4) In 2013-14 there were no outgoing or incoming exchange or visiting students with the Islands fee eligibility.

#### Notes on Table UG\_HC\_07:

<sup>\*</sup> Human, Social, and Political Sciences (HSPS) and Psychological and Behavioural Sciences are two new Triposes with the first year of entry in 2013-14. The Archaeology and Anthropology Tripos and the Politics, Psychology, and Sociology Tripos had a last year of entry into the first year of the course in 2012-13. The only new entrants to Archaeology and Anthropology and Politics, Psychology, and Sociology Triposes in October 2013 are affiliated students who enter into the second year of the course.

<sup>\*\*</sup> Students admitted to read Chemical Engineering initially read either Engineering or Natural Sciences in their first year and proceed to read Chemical Engineering in subsequent years. They are recorded under the respective headings 'Chemical Engineering via Engineering via Engineering via Natural Sciences'. Students who are not directly admitted to read Chemical Engineering, but later transfer from another Tripos or students who directly enter Part IIA of the Chemical Engineering Tripos (i.e. affiliated students or Cambridge graduates reading Triposes) are recorded under the heading 'Chemical Engineering'.

1) Incoming exchange and other visiting students are excluded from this table.

<sup>2) &#</sup>x27;Year of study' relates to the number of years, excluding any periods of intermission, that a student has attended their current course from the time of admission and does not necessarily correspond to the year of the programme. For example, medical and veterinary students who have kept one to three terms since being admitted to the clinical part of their course are recorded as 'Year 1' even though they are on the fourth year of their programme.

#### Notes on Table UC\_HC\_08

Mature students are those who are aged 21 or over.

<sup>\*</sup> Human, Social, and Political Sciences (HSPS) and Psychological and Behavioural Sciences are two new Triposes with the first year of entry in 2013-14. The Archaeology and Anthropology Tripos and the Politics, Psychology, and Sociology Tripos had a last year of entry into the first year of the course in 2012-13.

<sup>\*\*</sup> Students admitted to read Chemical Engineering initially read either Engineering or Natural Sciences in their first year and proceed to read Chemical Engineering in subsequent years. They are recorded under the respective headings 'Chemical Engineering via Engineering' and 'Chemical Engineering via Natural Sciences'.

1) Incoming exchange and other visiting students are excluded from this table.

<sup>2)</sup> Age group is based on the age at the time of admission. The following definition is used where tables are split between young and mature students: Young students are those who are aged under 21;

2013-14 UG\_HC\_09

#### Notes on Table UC\_HC\_09:

Mature students are those who are aged 21 or over.

<sup>\*</sup> Human, Social, and Political Sciences (HSPS) and Psychological and Behavioural Sciences are two new Triposes with the first year of entry in 2013-14. The Archaeology and Anthropology Tripos and the Politics, Psychology, and Sociology Tripos had a last year of entry into the first year of the course in 2012-13. The only new entrants to Archaeology and Anthropology and Politics, Psychology, and Sociology Triposes in October 2013 are affiliated students who enter into the second year of the course.

<sup>\*\*</sup> Students admitted to read Chemical Engineering initially read either Engineering or Natural Sciences in their first year and proceed to read Chemical Engineering in subsequent years. They are recorded under the respective headings 'Chemical Engineering via Engineering' and 'Chemical Engineering via Natural Sciences'.

<sup>1)</sup> Incoming exchange and other visiting students are excluded from this table.

<sup>2)</sup> Age group is based on the age at the time of admission. The following definition is used where tables are split between young and mature students: **Young** students are those who are aged under 21;

- Notes on Table PG\_HC\_02:

  1) Incoming exchange and other visiting postgraduate students are excluded from this table.

  2) Current intake includes students admitted to their current course in the twelve months preceding the 1 December.

  3) 'PGT' refers to graduate and postgraduate students on taught courses; 'PGR' referes to graduate and postgraduate students on research courses.

PG\_HC\_03: Postgraduate students by School by Faculty/Department by level of study by gender, 2013-14

- Notes on Table PG\_HC\_03:

  1) Incoming exchange and other visiting postgraduate students are excluded from this table.

  2) Postgraduates writing up/under examination are included in this table.

  3) 'PGT' refers to graduate and postgraduate students on taught courses; 'PGR' referes to graduate and postgraduate students on research courses.

PG\_HC\_04: Postgraduate students admitted to their current course in the previous twelve months by School by Faculty/Department by level of study by gender, 2013-14

- Notes on Table PG\_HC\_06:

  1) Incoming exchange and other visiting postgraduate students are excluded from this table.

  2) Current intake includes students admitted to their current course in the twelve months preceding the 1 December.

  3) 'PGT' refers to graduate and postgraduate students on taught courses; 'PGR' referes to graduate and postgraduate students on research courses.

  4) The 'Home/Islands' category includes 1 PGT and 1 PGR students with Islands fee eligibility.

Notes on Table PG\_HC\_07:

\* Most students studying for a Ph.D. or Eng.D. qualification are required to complete a probationary year and are initially registered either for the Certificate of Postgraduate Study (C.P.G.S.) or for a probationary Ph.D. (Prob.). This column shows the number of students on a probationary year for each faculty/department and is a subset of the "Total" column.

1) Doctorate-level students include matriculated full-lime and part-time students reading for the Eng.D., Ph.D., Ed.D., M.D., probationary Ph.D. and C.P.G.S.

2) Incoming exchange and other visiting postgraduate students are excluded from this table.

PG\_HC\_08: Doctorate-level postgraduate students admitted to their current course in the previous twelve months by School by Faculty/Department by mode of study by gender, 2013-14

## Notes on Table PG\_HC\_09:

<sup>\*</sup>Most students studying for a Ph.D. or Eng.D. qualification are required to complete a probationary year, and are initially registered either for the Certificate of Postgraduate Study (C.P.G.S.) or for a probationary Ph.D. (Prob.). This column shows the number of students on a probationary year for each faculty/department and is a subset of the 'Total' column.

1) Doctorate-level students include matriculated full-time and part-time students reading for the Eng.D., Ph.D., Ed.D., M.D., probationary Ph.D. and C.P.G.S.

2) Incoming exchange and other visiting postgraduate students are excluded from this table.

<sup>3)</sup> The 'Home/Islands' category includes 2 full-time students with Islands fee eligibility (1 student at Department of Geography and 1 student at Department of Psychology).

PG\_HC\_10: Doctorate-level postgraduate students admitted to their current course in the previous twelve months by School by Faculty/Department by mode of study by fee eligibility, 2013-14

Notes on Table PG\_HC\_10:

\* Most students studying for a Ph.D. or Eng.D. qualification are required to complete a probationary year, and are initially registered either for the Certificate of Postgraduate Study (C.P.G.S.) or for a probationary Ph.D. (Prob.). This column shows the number of students on a probationary year for each faculty/department and is a subset of the 'Total' column.

1) Doctorate-level students include matriculated full-lime and part-lime students reading for the Eng.D., Ph.D., Ed.D., M.D., probationary Ph.D. and C.P.G.S.

2) Incoming exchange and other visiting postgraduate students are excluded from this table.

3) Current intake includes students admitted to their current course in the twelve months preceding the 1 December.

4) There were no new entrants to the doctorate level course with the Islands fee eligibility in 2013-14.

PG\_HC\_11: Research Masters-level postgraduate students by School by Faculty/Department by mode of study by gender, 2013-14

### Notes on Table PG\_HC\_13:

- 1) Research Masters-level students include matriculated full-time and part-time students reading for the M.Litt., M.Sc., M.Phil., M.Res., M.St., M.Ed. and various postgraduate level Diplomas.
  2) See Appendix 2 for the breakdown of research and taught Masters courses.
  3) Incoming exchange and other visiting postgraduate students are excluded from this table.
  4) The 'Home/Islands' category includes 1 full-time student with Islands fee eligibility at the Faculty of Modern and Medieval Languages.

PG\_HC\_14: Research Masters-level postgraduate students admitted to their current course in the previous twelve months by School by Faculty/Department by mode of study by fee eligibility, 2013-14

Notes on Table PG\_HC\_17:

1) Taught Masters-level students include matriculated full-time and part-time students reading for the M.Phil., M.St., M.B.A., Executive M.B.A., M.Fin., LL.M., M.C.L., M.A.St., M.Mus., P.G.C.E. and various postgraduate level Diplomas.

<sup>2)</sup> See Appendix 2 for the breakdown of research and taught Masters courses.

3) Incoming exchange and other visiting postgraduate students are excluded from this table.

4) The 'Home/Islands' category includes 1 full-time student with Islands fee eligibility at the Faculty of Education.

PG\_HC\_18: Taught Masters-level postgraduate students admitted to their current course in the previous twelve months by School by Faculty/Department by mode of study by fee eligibility, 2013-14

Notes on Table PG\_HC\_19:

\* The two-year year taught M.Phil. course run by the department of Architecture has changed its name from 'M.Phil. in Environmental Design in Architecture Option B' to 'M.Phil. in Architecture and Urban Design'. Consequently, in 2013-14 continuing students are recorded against the former course name whilst new entrants are recorded against the new course name.

<sup>1)</sup> Incoming exchange and other visiting postgraduate students are excluded from this table.

2) Most students studying for a Ph.D. qualification are required to complete a probationary year, and are initially registered either for the Certificate of Postgraduate Study (C.P.G.S.) or for a probationary Ph.D.

<sup>3)</sup> The 'Home/Islands' category includes 4 full-time students with Islands fee eligibility on the following courses:

<sup>1</sup> student (P.G.C.E.).

<sup>1</sup> student (M.Phil. in European Literature and Culture).

<sup>1</sup> student (Ph.D. in Geography).

<sup>1</sup> student (Ph.D. in Psychology).

PG\_HC\_20: Postgraduate students admitted to their current course in the previous twelve months by course of study by degree type by mode of study by fee eligibility, 2013-14

#### Notes on Table PG\_HC\_20:

- 1) Incoming exchange and other visiting postgraduate students are excluded from this table.
- 2) Current intake includes students admitted to their current course in the twelve months preceding the 1 December.
- 3) Most students studying for a Ph.D. qualification are required to complete a probationary year, and are initially registered either for the Certificate of Postgraduate Study (C.P.G.S.) or for a probationary Ph.D.
- 4) Postgraduate students on the integrated doctoral 1+3 courses that combine one year M.Res. followed by 3 year Ph.D. are counted as intake students both at the point of entry of the M.Res. part of the course and the Ph.D. part of the course
- 5) The 'Home/Islands' category includes 2 full-time students with Islands fee eligibility on the following courses:
- 1 student doing P.G.C.E.
- 1 student doing M.Phil. in European Literature and Culture

#### Notes on Table COL HC 11:

- 1) Incoming exchange and other visiting students are excluded from this table.
- 2) Mature students are defined as students who were aged 21 or over at the time of admission.
- 3) Medical and veterinary students obtain a B.A. for the pre-clinical part of their course and are recorded as a new admission when they enrol on the clinical part of their course. Therefore for these students age at time of admission indicates the age when students started the clinical part of their course, not the age at the time of admission to their pre-clinical course. Thus the majority of medical and veterinary students starting the clinical part of their course will be defined as mature students.
- 4) The 'Previous degree' category in Table COL\_HC\_11 includes all affiliated students, Cambridge graduates reading triposes, medical and veterinary students on the clinical part of their course and students reading the Graduate Course in Medicine. It also includes students undertaking any other course who had already obtained a previous Higher Education degree at the time of admission to their course.
- 5) This table does not include 1 affiliated student (Jesus) who was less than 21 years of age at the time of admission to their course.

#### Notes on Table COL HC 12:

- 1) Incoming exchange and other visiting students are excluded from this table.
- 2) Mature students are defined as students who were aged 21 or over at the time of admission.

<sup>3)</sup> Medical and veterinary students obtain a B.A. for the pre-clinical part of their course and are recorded as a new admission when they enrol on the clinical part of their course. Therefore for these students age at time of admission indicates the age when students started the clinical part of their course, not the age at the time of admission to their pre-clinical course. Thus the majority of medical and veterinary students starting the clinical part of their course will be defined as mature students.

<sup>4)</sup> The 'Previous degree' category in Table COL\_HC\_12 includes all affiliated students, Cambridge graduates reading triposes, medical and veterinary students on the clinical part of their course and students reading the Graduate Course in Medicine. It also includes students undertaking any other course who had already obtained a previous Higher Education degree at the time of admission to their course.

<sup>5)</sup> This table does not include 1 affiliated student (Jesus) who was less than 21 years of age at the time of admission to their course.

Notes on Table BIO\_01:

\* Denotes Commonwealth countries. British Overseas Territories are considered members of the Commonwealth through the UK.

1) This table presents data for full-time students only.

2) Students whose nationality is recorded as the Isle of Man or Channel Islands are reported as UK nationals, on the grounds that they all hold a type of Biritish nationality under British Nationality Law.

3) If a student holds more than one nationality, then the nationality given as the primary nationality is reported.

4) Of 19 students recorded under 'British National (Overseas)' category 16 have also have Hong Kong nationality, one has Chinese nationality and two have recorded reported.

no other nationality reported.

### Notes on Table BIO\_04:

- \*\*Denotes Commonwealth countries. British Overseas Territories are considered members of the Commonwealth through the UK.

  1) This table presents data for part-time students only.

  2) Students whose nationality is recorded as the Isle of Man or Channel Islands are reported as UK nationals, on the grounds that they all hold a type of Biritish nationality under British Nationality Law.
- 3) If a student holds more than one nationality, then the nationality given as the primary nationality is reported.
  4) Postgraduates writing up/under examination are excluded from this table.
  5) Incoming exchange and other visiting students are excluded from this table.

Notes on Table BIO\_05:

\* Denotes Commonwealth countries. British Overseas Territories are considered members of the Commonwealth through the UK.

1) This table presents data for full-time students only.

2) Domicile (country of normal residence) is taken here to be the country of the student's permanent or home address prior to entry to the current programme of study.
3) The UK-domiciled sub-total includes students who are domiciled in England, Scotland, Wales, Northern Ireland, the Isle of Man and the Channel Islands.

- Notes on Tables BIO\_25 and BIO\_26:

  1) Disability data are as reported on the basis of the student's self-assessment.
- The numeric codes and descriptions of disability categories are as defined by the Higher Education Statistical Agency (HESA).
   Postgraduates writing up/under examination are excluded from these tables.
- 4) Incoming exchange and other visiting students are excluded from these tables.
- 5) The UK-domiciled category includes students domiciled in England, Scotland, Wales, Northern Ireland, Isle of Man and Channel Islands.

# Notes on Tables BIO\_31 and BIO\_32:

<sup>1)</sup> Medical and veterinary students obtain a B.A. for the pre-clinical part of their course and are recorded as a new admission when they enrol on the clinical part of their course. Therefore for these students age at time of admission shown in Tables BIO\_31 and BIO\_32 indicates the age when students started the clinical part of their course, not the age at the time of admission to their pre-clinical course.

<sup>2)</sup> The 'Previous degree' category in Tables BIO\_31 and BIO\_32 includes all affiliated students, Cambridge graduates reading triposes, medical and veterinary students on the clinical part of their course and students reading the Graduate Course in Medicine. It also includes students undertaking any other course who had already obtained a previous Higher Education degree at the time of admission to their course.

3) Incoming exchange and other visiting students are excluded from these tables.

### Notes on Tables BIO\_33 and BIO\_34:

<sup>1)</sup> Incoming exchange and other visiting students are excluded from these tables.

<sup>2)</sup> Current intake in Table BIO\_34 includes students admitted to their current course in the twelve months preceding the 1 December.

# **Appendix 1 Definition of undergraduate and postgraduate students**

This list is current for 2013-14 (see Statutes and Ordinances).

# 1. Undergraduate

- a) Students studying for the following degrees: B.A., B.Th., M.Eng., M.Sci., M.Math., Mus.B., M.B./B.Chir. and Vet.M.B.
- b) Students reading Triposes who will not be awarded a qualification:
  - incoming undergraduate students on the ERASMUS exchange scheme;
  - incoming undergraduate students on the MIT exchange scheme;
  - incoming undergraduate students on the NUS exchange scheme;
  - · other visiting students reading Triposes;
  - Cambridge graduate students reading Triposes.

# 2. Postgraduate

- a) Students studying for:
  - Degrees:

Eng.D., Ph.D., Ed.D., M.D., M.Litt., M.Sc., M.Phil., M.Res., M.St., LL.M.\*, M.C.L.\*, M.B.A.\*, M.Ed., M.Fin.\*, M.A.St.\* and M.Mus.\*.

• Diplomas:

Economics

International Law

**Legal Studies** 

Conservation of Easel Paintings\*

Theology and Religious Studies\*

Certificates:

Certificate of Postgraduate Study (C.P.G.S.)

Postgraduate Certificate in Education (P.G.C.E.)\*

- b) Students registered as Probationary Ph.D.
- c) Registered graduate students who will not be awarded a qualification:
  - incoming postgraduate students on the ERASMUS exchange scheme;
  - other visiting postgraduate students.

<sup>\*</sup> Courses for which students are not registered as graduate students (see section 4.1 of the notes on p. 4).

# Appendix 2 Definition of taught and research courses

# Undergraduate

All undergraduate courses are classified as *taught* according to HEFCE definitions.

# **Postgraduate**

Degrees	R= Research
	T = Taught
Ph.D.	R
Ed.D.	R
Eng.D.	R
M.D.	R
M.Litt.	R
M.Sc.	R
M.Phil.	R
with the following exceptions:	Т
M.Phil. in Advanced Chemical Engineering	
M.Phil. in Advanced Computer Science	
M.Phil. in Archaeology	
M.Phil. in Architecture and Urban Design	
M.Phil. in Assyriology	
M.Phil. in Bioscience Enterprise	
M.Phil. in Computational Biology	
M.Phil. in Conservation Leadership	
M.Phil. in Development Studies	
M.Phil. in Economic Research	
M.Phil. in Economics	
M.Phil. in Egyptology	
M.Phil. in Energy Technologies	
M.Phil. in Engineering for Sustainable Development	
M.Phil. in Environmental Design in Architecture Option B	
M.Phil. in Environmental Policy	
M.Phil. in Epidemiology	
M.Phil. in Finance	
M.Phil. in Finance and Economics	
M.Phil. in Industrial Systems, Manufacturing, and	
Management	
M.Phil. in Innovation, Strategy, and Organization	
M.Phil. in International Relations Option A	
M.Phil. in Management	
M.Phil. in Management Science and Operations	
M.Phil. in Micro- and Nanotechnology Enterprise	
M.Phil. in Nuclear Energy	
M.Phil. in Planning, Growth, and Regeneration	
M.Phil. in Public Health	
M.Phil. in Public Policy	
M.Phil. in Real Estate Finance	
M.Phil. in Scientific Computing	
M.Phil. in Technology Policy	
	ı

M.Res.	R
M.St.	R
with the following exceptions:	Т
M.St. in Creative Writing	
LL.M.	Т
M.C.L.	Τ
M.B.A. (including Executive M.B.A.)	Т
M.Ed.	R
M.Fin.	Т
M.A.St.	Τ
M.Mus.	Т
Students registered as Probationary Ph.D.	R

Diplomas	
Economics	Т
International Law	R
Legal Studies	R
Conservation of Easel Paintings	Т
Theology and Religious Studies	Т

Certificates	
Certificate of Postgraduate Study (C.P.G.S.)	R
Postgraduate Certificate in Education (P.G.C.E.)	Т

Please note that during 2012-13 (and after the publication of 'Student Statistics 2012-13') a number of courses were reclassified:

### from PGR to PGT

- M.Phil. in Architecture and Urban Design;
- M.Phil. in Environmental Design in Architecture Option B;
- M.Phil. in Scientific Computing.

# from PGT to PGR

- M.St. in in Applied Criminology, Penology and Management;
- M.St. in Applied Criminology and Police Management;
- M.St. in Sustainability Leadership.

The following courses were reclassified from 'research' to 'taught' in January 2011:

- M.Phil. in Advanced Computer Science;
- M.Phil. in Economic Research;
- M.Phil. in Economics;
- M.Phil. in Innovation, Strategy and Organisation;
- M.Phil. in Management Science & Operations.

These reclassifications lead to an increase in the number of postgraduate taught students and a corresponding decrease in the number of postgraduate research students in comparison with 2010-11 data.
