Notes to statistical tables

1. Changes to 2014-15 publication

There are two changes to Table UC_HC_01 'Undergraduate fee-paying students by qualification by fee group by fee eligibility by fee regime, 2014-15':

- the fee regime for students with Home/EU fee eligibility is now displayed by 'old regime' and 'new regime' rather than by year of entry;
- the year of entry for students with Islands or Overseas fee eligibility on the Clinical Medical or Clinical Veterinary courses (M.B./Vet.M.B.) is now defined as the year of entry into the preceding Pre-Clinical course (unless the student transferred into the Clinical course from another University).

2. General

2.1. Student headcount data census date

All headcount data for matriculated students are as at 1 December 2014. This is the census date for the Higher Education Students Early Statistics Survey (HESES) returned to HEFCE.

For non-matriculated students the data are based on the previous year's HESA reporting period. (The University makes an annual return to HESA (Higher Education Statistics Agency), which provides more detailed information on individual students and covers the period 1 August of one year to 31 July in the following year.) This is because many of these students attend courses that are of less than one year in duration and it is more accurate to present their data as a count over the course of one year, rather than as a snap shot at 1 December.

2.2. Coverage of the tables

The following groups of students are excluded from all of the tables:

- students on non-credit bearing courses;
- students who, at the census date, are on intermission;
- students aiming for a Ph.D. or M.D. by Special Regulations;
- students who are entered for an examination only, i.e., are not attending a course;
- students reading the M.Res. in Photonic Systems Development who are registered students at University College London (the course is delivered jointly by Cambridge and UCL);
- students who reported their gender as 'Other' (to ensure that individuals cannot be identified, owing to the small number of students in this category and the detailed breakdown of data by course, college and other categories). The number of students that fall within this category is given in the notes to the 'Headline student statistics'.

Most of the tables with the exception of the 'Headline student statistics' and 'All student headcount tables' do not include students who are not required to matriculate, i.e. who are not members of a Cambridge College.

Matriculation marks the formal admission of a student to membership of the University. To qualify for matriculation, a student must have been admitted to a College and, unless a Graduate Student or an Affiliated Student, must satisfy the examination requirements for matriculation. Statue B, I, 1 (a)-(d) and Chapter II of Ordinances provide a list of persons

qualified to matriculate (www.admin.cam.ac.uk/univ/so/2014/statute b-section1.html and www.admin.cam.ac.uk/univ/so/2014/chapter02-front.html respectively).

Students on the following courses are not required to matriculate nor be admitted as a member of a Cambridge College:

- Certificate and diploma courses delivered by the Institute of Continuing Education;
- INSET (In-Service Education and Training) courses delivered by the Faculty of Education;
- Certificate in Theology for Ministry;
- · Postgraduate Diploma in Entrepreneurship;
- Postgraduate Certificate in Sustainable Business;
- Postgraduate Certificate in Sustainable Value Chains.

2.3. Fee eligibility

Fee eligibility categories reported in the tables are as follows:

- Home students with qualifying residence¹ in the UK;
- EU students with qualifying residence in the EEA (comprises the 28 countries of the EU plus Iceland, Norway and Liechtenstein) or Switzerland;
- Islands students who commenced their courses prior to 2013-14 with qualifying residence in the Isle of Man or the Channel Islands (Islands students who commenced their courses in or after 2013-14 pay the Overseas rate of fee);
- Overseas students who do not have qualifying residence in the categories above.

2.4. Mode of study

Students are classified as 'full-time' if they are undertaking a full-time course and are neither writing up nor under examination nor intermitting.

Students are classified as 'part-time' if they are undertaking a part-time course and are neither writing up nor under examination nor intermitting.

The 'writing up/under examination' category refers to postgraduate students who have completed the minimum requirements of their course but who have either not yet submitted their dissertation or have not yet had their degree approved. Such students are not required to be in attendance at the University.

2.5. Level of study

The headings 'Undergraduate/Postgraduate' in these tables are as defined by HEFCE and HESA. A complete list of courses designated 'undergraduate' or 'postgraduate' is shown in Appendix 1.

The headings 'PGT/PGR' in these tables are as defined by HEFCE and HESA. A complete list of courses designated as 'taught' or 'research' is shown in Appendix 2.

2.6. Current intake

Current intake for headcount tables is defined as students admitted to their course in the twelve months since the preceding 1 December census date. For postgraduate students this definition includes students admitted in the Lent, Easter and Michaelmas terms preceding the

¹ For definitions of qualifying residence for each of the fee eligibility categories please consult The Education (Fees and Awards) (England) Regulations 2007 (www.legislation.gov.uk/uksi/2007/779/contents/made).

census date. However, in the time series tables the current intake is defined as students admitted to their course in September/October of the current academic year only.

Undergraduate medical and veterinary students are counted as intake students both at the point of entry to the pre-clinical part of the course and the clinical part of the course.

Postgraduate students on 1+3 doctoral training programmes, which consist of a one-year M.Res. or M.Phil. followed by a three-year Ph.D., are counted as intake students both at the point of entry to the M.Res./M.Phil. and at the start of the Ph.D. The only exception is in Table PG_HC_22, in which the year of entry for students on the 1+3 courses is defined as the year of entry into the M.Res./M.Phil. part of the course.

3. Time series tables

3.1. Changes in definitions and census dates

Up to and including 1993–94, the definitions of UGC/UFC (the bodies that preceded HEFCE) have been used in cumulative tables; the figures were calculated at the UGC/UFC census date of 31 December. In and after 1994–95, HEFCE/HESA definitions have been used, and the baseline has been 1 December.

One of the areas affected by the changes in definition is the categorisation of mode of study for postgraduate students. Up to and including 1993-94 postgraduate students were classified as 'not full-time' if they were:

- undertaking a part-time course;
- either writing up or under examination;
- · intermitting their course of study;
- students holding established University posts;
- research assistants financed from Research Council grants or research contracts.

Between 1995-96 and 2005-06 postgraduate students were classified as 'not full-time' if they:

- were undertaking a part-time course;
- had completed the minimum requirements of their course and were not intermitting, i.e., they were either writing up or under examination.

Between 2006-07 and 2009-10 'not full-time' category was further divided into 'full-time writing up/under exam', 'part-time' and 'part-time writing up/under exam'.

From 2010-11 categories 'full-time writing up/under exam' and 'part-time writing up/under exam' have been combined into one category 'writing up/under exam'.

The definition of 'writing up' also changed over time:

- Up to and including 2004–05, postgraduate students undertaking a full-time course were recorded as 'full-time' for the required terms of their course, and after those terms were completed, as 'not full-time'. For example, a three-year Ph.D. was recorded as 'full-time' in the first nine terms and as 'not full-time' in and after the tenth term.
- In 2005–06 and 2006–07, postgraduate students undertaking a full-time course were recorded as 'full-time' for the required terms of their course **plus one extra term**, and thereafter as 'not full-time' (defined as 'full-time writing up/under exam' in 2006–07). Thus in 2005–06, the typical three-year Ph.D. student was recorded as 'full-time' in the first ten

terms and from the eleventh term onwards as 'not full-time' ('full-time writing up/under exam' in 2006–07). Since the tenth term (for most students) encompasses the 1 December census date, PhD students in their tenth term are included in the headcount as 'full-time'.

From 2007–08, postgraduate students undertaking a full-time course are recorded as 'full-time' for the required terms of their course and as 'full-time writing up/under exam' if they have completed the required terms. Thus the typical three-year Ph.D. student is recorded as 'full-time' in the first nine terms and from the tenth term onwards as 'full-time writing up/under exam'.

The effects of these changes in definitions are:

- In comparison to 2004–05 totals, the number of postgraduate students defined as 'full-time' in 2005–6 and 2006–07 increased.
- In comparison to 2006–07 totals, the number of postgraduate students defined as 'full-time' in 2007–08 decreased.

3.2. Temporal scope of time series tables

Most of the time series tables show data for the last twenty years only. For older data, please refer to previous publications or contact the Student Statistics Office (for contact details see 'Further information' below). However, for some of the tables it has not been possible to access data for the whole twenty-year period; therefore, for these tables the time series starts from the year in which a particular breakdown of the data became available.

3.3. Impact of European Union expansion on Home/Overseas student distribution

On 1 May 2004, the following countries were granted full EU membership: Cyprus, the Czech Republic, Estonia, Hungary, Latvia, Lithuania, Malta, Poland, Slovakia, and Slovenia. In and after 2005–06, students from those countries are classified as Home/EU, not Overseas. On 1 January 2007, Bulgaria and Romania were granted full EU membership. Students from those countries are classified as Home/EU in and after 2007–08. On 1 July 2013 Croatia acceded to the EU and Croatian students are classified as Home/EU in and after 2013-14.

3.4 Impact of reclassification of postgraduate courses from 'research' to 'taught'

During 2011-12 and 2012-13 a number of postgraduate courses were reclassified (see Appendix 2 for details). These changes should be taken into account when comparing postgraduate headcount tables across publications.

4. All student headcount tables

4.1. Graduate and postgraduate students

Within the University of Cambridge, students enrolled on a postgraduate-level course are further divided on the basis of the student's course of study, whereby some students are registered as graduate students and others are not. Tables that present data by course of study reflect this division under the respective headings 'Graduate students' and 'Postgraduate students'.

From 2013-14 the M.Ed. course is in a state of transition, whereby the new intake students are registered as graduate students but continuing students are not. In Tables ALL_HC_01 students studying for the M.Ed. are grouped together in the 'Graduate students' category.

4.2. Affiliated students and Cambridge graduates reading triposes

'Affiliated student' is defined as a person who, before matriculation in the University of Cambridge, has received or was qualified to receive a degree from another higher education provider, and, subject to approval, is able to complete an undergraduate degree in less than the normal time required. Students who already hold a Cambridge degree are thus excluded from this definition and are recorded as 'Cambridge graduates reading triposes'. These definitions are not used by HEFCE/HESA.

5. Undergraduate headcount tables

5.1. Categories of students included

The undergraduate tables include students aiming for the following qualifications:

- B.A., M.Eng., M.Math., M.Sci. or B.Th.;
- Clinical Medicine (M.B.);
- Clinical Veterinary Medicine (Vet.M.B.).

The undergraduate tables also include students reading Triposes who are not aiming for a qualification because they already hold a Cambridge degree that prevents them from being awarded a B.A. These students are described in the tables as 'Cambridge graduates reading Triposes' (see note 4.2).

The undergraduate headcount tables include outgoing exchange students (ERASMUS, MIT and NUS (National University of Singapore)) and other students studying or working abroad as part of their course.

5.2. Categories of students excluded

Incoming exchange and other visiting students are excluded from most undergraduate headcount tables, with the exception of Tables UG_HC_01, UG_HC_02, UG_HC_03c, UG_HC_05c and UG_HC_10.

5.3. Pre-clinical medical and veterinary students

Pre-clinical medical and veterinary students read the Medical and Veterinary Sciences Tripos in years one and two, but read a different Tripos in year three. In all tables they are included under the respective headings 'Medicine (pre-clinical)' or 'Veterinary Medicine (pre-clinical)', irrespective of the Tripos examination for which they were entered in their final year, with the

exception of Tables UG_HC_03a and UG_HC_05a, which gives a breakdown of numbers by the actual Tripos read.

6. Postgraduate headcount tables

6.1. Categories of students included or excluded from these tables

The postgraduate tables include data for all matriculated students on postgraduate-level courses.

Incoming exchange and other visiting students are excluded from all postgraduate headcount tables with the exception of Table PG HC 21.

Postgraduate students who have completed the minimum requirements of their course, i.e. are recorded as 'writing up/under exam', are reported in a single, separate category, regardless of whether their mode of study prior to writing up was full-time or part-time.

6.2. Doctorate and Master level courses

The level of study reported for postgraduate degrees is as follows:

- Doctorate level: Ph.D., Eng.D., Ed.D., M.D., probationary Ph.D. and C.P.G.S.
- Masters level: M.Litt., M.Sc., M.Phil., M.Res., M.St., M.Ed., M.B.A., Executive M.B.A., M.Fin., LL.M., M.C.L., M.A.St., M.Mus., P.G.C.E. and various postgraduate-level Diplomas.

All doctorate-level courses are research courses and are presented together in the same tables. Masters-level courses are presented in separate tables depending on whether the course is classified as 'research' or as 'taught' (see Appendix 2 for details).

Most students studying for a Ph.D. or Eng.D. qualification are required to complete a probationary year, and are initially registered either for the Certificate of Postgraduate Study (C.P.G.S.) or for a probationary Ph.D. For further information about routes to the Ph.D. see http://www.admin.cam.ac.uk/students/gradadmissions/prospec/studying/qualifdir/glossary.html/">http://www.admin.cam.ac.uk/students/gradadmissions/prospec/studying/qualifdir/glossary.html/">http://www.admin.cam.ac.uk/students/gradadmissions/prospec/studying/qualifdir/glossary.html/">http://www.admin.cam.ac.uk/students/gradadmissions/prospec/studying/qualifdir/glossary.html/">http://www.admin.cam.ac.uk/students/gradadmissions/prospec/studying/qualifdir/glossary.html

6.3. Faculties/departments

Most of the postgraduate headcount tables provide a breakdown by School and Faculty/Department.

The breakdown by Faculty/Department is on the basis of each course's record in CamSIS, the University's student record system, where all postgraduate courses are recorded as having only one owning Academic Organisation (Faculty, Department or Institution). Thus the breakdown does not necessarily reflect the departmental affiliation of students' supervisors.

The department/faculty list is based on the departmental structure at the census date of 1 December 2014.

7. Bio-demographic tables

7.1. Nationality

If a student holds more than one nationality, then the nationality given as the primary nationality is reported. This differs from the HESA definition.²

Students whose nationality is recorded as the 'Isle of Man' or 'Channel Islands' are reported as UK nationals.

7.2. Domicile

Domicile is defined as the country of normal residence, i.e. the country of the student's permanent home address prior to entry to the current programme of study. It does not necessarily equate with the definition of qualifying residence used to determine fee eligibility (see note 2.3.).

7.3. Ethnicity and disability

Ethnicity and disability data are as reported on the basis of the student's self-assessment.

8. Further information

Questions about these tables, or the approach to the statistics, should be addressed to:

Student Statistics Office
Planning and Resource Allocation Office
The Old Schools
Trinity Lane
Cambridge CB2 1TT

Email: <u>student.statistics@admin.cam.ac.uk</u> www.admin.cam.ac.uk/offices/planning/sso/

² HESA instructions on how to code dual nationality are as follows: 'Where a student has dual nationality including British, they should be coded as United Kingdom (GB). If a dual nationality, not including British, but including non-UK EU country then use relevant EU country code. If neither British or non-UK EU country then code as either nationality'

⁽https://www.hesa.ac.uk/index.php?option=com_studrec&task=show_file&mnl=14051&href=a^ ^NATION.html).

ote 3.

- 1) Postgraduate student numbers exclude 2,146 students writing up/under examination (1,188 male students and 958 female students).
- 2) For non-matriculated students the data cover the HESA reporting period of 1 August 2013 to 31 July 2014.
- 3) The overall total includes 8 matriculated students who reported their gender as 'Other'. Data for these students are excluded from all other tables to ensure that individuals cannot be identified (owing to the small number in this category and the detailed breakdowns of data by course, college and other categories).

Notes on Tables TS_01 and TS_01a:

- *The spike in full-time postgraduate numbers in the years 2005-06 and 2006-07 is accounted for by a change in definition of 'writing up'. See note 3.1 page 3 for further details.
- 1) Prior to 2006-07 the data for postgraduate students were divided into 'full-time' and 'not full-time' categories. As the definition of 'not full-time' does not equate to 'part-time' (see note 3.1 (page 3) on the changes of definitions over time), it is not possible to present the data for part-time postgraduate students for the years before 2006-07.
- 2) Prior to 2010-11 direct entrants to the Certificate in Advanced Study in Mathematics (C.A.S.M.), an undergraduate-level qualification, were included in the undergraduate section of Table TS 01. In 2010-11 C.A.S.M. was replaced with two new qualifications: the M.Math qualification for students continuing from the B.A. course on an integrated masters programme and the Master in Advanced Study (M.A.St.) qualification for direct entrants. From 2010-11 students studying for the M.Math are included in the undergraduate section, but students studying for the M.A.St. are included in the postgraduate section of Table
- 3) Postgraduate students writing up/under examination are excluded from these tables for all years.
- 4) Non-matriculated students are excluded from these tables for all years (see note 2.2 (page 1) for the definition of non-matriculated students).
- 5) Undergraduate and postgraduate incoming exchange and other visiting students are included in these tables for all years.
- 6) Affiliated undergraduate students and Cambridge graduates reading Triposes are included in these tables for all years.
- 7) In 2009-10 students reading the Diploma in Theology and Religious Studies (5 students) were included in the undergraduate student data, but in all other years the students on this course are included in the postgraduate section.

2014-15	182	50.8%	176	49.2%	358

Notes on Tables TS_02 and TS_02a:

1) Prior to 2006-07 the data for postgraduate students were broken down into 'full-time' and 'not full-time' categories. As the definition of 'not full-time' does not to equate to 'part-time' (see note 3.1 (page 3) on the changes of definitions over time), it is not possible to present the data for part-time postgraduate students for the years before 2006-07.

2) Prior to 2010-11 direct entrants to the Certificate in Advanced Study in Mathematics (C.A.S.M.), an undergraduate-level qualification, were included in the undergraduate section of Table TS_02. In 2010-11 CASM was replaced with two new qualifications: the M.Math qualification for students continuing from the B.A. course on an integrated masters programme and the Master in Advanced Study (M.A.St.) qualification for direct entrants. From 2010-11 students studying for the M.Math are included in the undergraduate section, but students studying the M.A.St. are included in the postgraduate section of the Table TS 02.

3) For postgraduate students the current intake in these tables includes only the students who were admitted to their course in October of a given academic year and excludes the students who were admitted during the previous Lent and Easter Terms (147 full-time and 87 part-time postgraduates in 2014).

4) Non-matriculated students are excluded from these tables for all years (see note 2.2 (page 1) for the definition of non-matriculated students).

5) Undergraduate and postgraduate incoming exchange and other visiting students are included in these tables for all years.

6) Affiliated undergraduate students and Cambridge graduates reading Triposes are included in these tables for all years.

7) In 2009-10 students reading the Diploma in Theology and Religious Studies (5 students) are included in the undergraduate student data, but in all other years the students on this course are included in the postgraduate section.

Notes on Tables TS_03 and TS_03a:

- *The spike in full-time postgraduate numbers in the years 2005-06 and 2006-07 is accounted for by a change in definition of 'writing up'. See note 3.1 page 3 for further details.
- 1) Prior to 2006-07 the data for postgraduate students were divided into 'full-time' and 'not full-time' categories. As the definition of 'not full-time' does not equate to 'part-time' (see note 3.1 (page 3) on the changes of definitions over time), it is not possible to present the data for part-time postgraduate students for the years before 2006-07.
- 2) Prior to 2010-11 direct entrants to the Certificate in Advanced Study in Mathematics (C.A.S.M.), an undergraduate-level qualification, were included in the undergraduate section of the Table TS_03. In 2010-11 C.A.S.M. was replaced with two new qualifications: the M.Math qualification for students continuing from the B.A. course on an integrated masters programme and the Master in Advanced Study (M.A.St.) qualification for direct entrants. From 2010-11 students studying for the M.Math are included in the undergraduate section, but students studying the M.A.St. are included in the postgraduate section of the Table TS_03.
- 3) Please see note 3.3 (page 4) for details about changes in Home/Overseas distribution due to EU enlargement.
- 4) Postgraduate students writing up/under examination are excluded from these tables for all years.
- 5) Non-matriculated students are excluded from these tables for all years (see note 2.2 (page 1) for the definition of non-matriculated students).
- 6) Undergraduate and postgraduate incoming exchange and other visiting students are included in these tables for all years.
- 7) Affiliated undergraduate students and Cambridge graduates reading Triposes are included in these tables for all years.
- 8) In 2009-10 students reading the Diploma in Theology and Religious Studies (5 students) are included in the undergraduate student data, but in all other years the students on this course are included in the postgraduate section.
- 9) Students from the Channel Islands and the Isle of Man who commenced their courses in or after 2013-14 pay the Overseas rate of fee and are included in that category. Islands students who commenced their courses prior to 2013-14 are included in the 'Islands' fee eligibility category.

Notes on Tables TS_04, TS_04a and TS_4b:

- 1) Prior to 2006-07 the data for postgraduate students were broken down into 'full-time' categories. As the definition of 'not full-time' does not equate to 'part-time' (see note 3.1 (page 3) on the changes of definitions over time), it is not possible to present the data separately for full-time and part-time postgraduate students for the years before 2006-07.
- 2) Prior to 2010-11 direct entrants to the Certificate in Advanced Study in Mathematics (C.A.S.M.), un undergraduate-level qualification, were included in the undergraduate section of the Table TS_04. In 2010-11 C.A.S.M. was replaced with two new qualifications: the M.Math qualification for students continuing from the B.A. course on an integrated masters programme and the Master in Advanced Study (M.A.St.) qualification for students. From 2010-11 students studying for the M.Math are included in the undergraduate section, but students studying the M.A.St. are included in the postgraduate section of the Table TS_04.
- 3) For postgraduate students the current intake in these tables includes only the students who were admitted to their course in October of a given academic year and excludes the students who were admitted during the previous Lent and Easter Terms (147 full-time and 87 part-time postgraduates in 2014).
- 4) Please see note 3.3 (page 4) for details about changes in Home/Overseas distribution due to EU enlargement.
- 5) Postgraduate students writing up/under examination are excluded from these tables for all years.
- 6) Non-matriculated students are excluded from these tables for all years (see note 2.2 (page 1) for the definition of non-matriculated students).
- 7) Undergraduate and postgraduate incoming exchange and other visiting students are included in these tables for all years.
- 8) Affiliated undergraduate students and Cambridge graduates reading Triposes are included in these tables for all years.
- 9) In 2009-10 students reading the Diploma in Theology and Religious Studies (5 students) are included in the undergraduate student data, but in all other years the students on this course are included in the postgraduate section
- 10) Students from the Channel Islands and the Isle of Man who commenced their courses in or after 2013-14 pay the Overseas rate of fee and are included in that category. Islands students who commenced their courses prior to 2013-14 are included in the 'Islands' fee eligibility category.

Notes on Table ALL_HC_01:

^{*} Data in the 'Writing up' column presents all postgraduate students who have completed the minimum requirements of their course and are either writing up or under exam regardless of their mode of study (full-time or part-time).

¹⁾ See Section 4 of the 'Notes to statistical tables' (page 5) for definitions of graduate vs. postgraduate students, affiliated students and Cambridge graduates reading triposes.

²⁾ For non-matriculated students the data cover the HESA reporting period of 1 August 2013 to 31 July 2014. See note 2.2 (page 1) for definition of matriculated and non-matriculated students.

^{3) &#}x27;PGT' refers to graduate and postgraduate students on taught courses; 'PGR' referes to graduate and postgraduate students on research courses.

⁴⁾ From 2013-14 the M.Ed. course is in the state of transition, whereby the new intake students are registered as graduate students but continuing students are not. In this table all students studying for the M.Ed. are grouped together in the 'Graduate students' category.

ALL_HC_02: Students admitted to their current course in the previous twelve months by course of study by qualification by mode of study, 2014-15

Total	1	9	42	34	86

Notes on Tables UG_HC_01 and UG_HC_02:

- 1) A list of courses within each fee type and the corresponding fee amounts can be found in the 'Statutes and Ordinances of the University of Cambridge' at http://www.admin.cam.ac.uk/univ/so/2014/chapter01-section16.html#indexterm-d2e8958
- 2) These tables include fee-paying students only. Students who pay no fees incoming exchange students on ERASMUS, MIT and NUS exchange programmes are excluded from these tables.
 3) In this table the year of entry for students on the Clinical Medical or Clinical Veterinary courses (M.B./Vet.M.B.) is defined as the year of entry into the preceding Pre-Clinical course (unless the student transferred into the Clinical course from another University).
- 4) The 'ELQ' category incldues students who are paying a higher rate of fee charged to some Home/EU students studying for a qualification that is equal or lower to a qualification already held.
- 5) Students from the Channel Islands and the Isle of Man who commenced their courses in or after 2013-14 pay the Overseas rate of fee and are included in that category. Islands students who commenced their courses prior to 2013-14 are included in the 'Islands' fee eligibility category.

Total	6,350	5,436	11,786
Total %	53.9%	46.1%	100.0%

Notes on Table UG_HC_03:

^{*} Human, Social, and Political Sciences (HSPS) and Psychological and Behavioural Sciences are two new Triposes with the first year of entry in 2013-14. The Archaeology and Anthropology Tripos and the Politics, Psychology, and Sociology Tripos had a last year of intake into the first year of the course in 2012-13.

^{**} Students admitted to read Chemical Engineering initially read either Engineering or Natural Sciences in their first year and proceed to read Chemical Engineering in subsequent years. They are recorded under the respective headings 'Chemical Engineering via Engineering' and 'Chemical Engineering via Natural Sciences'. Students who are not directly admitted to read Chemical Engineering, but later transfer from another Tripos or students who directly enter Part IIA of the Chemical Engineering Tripos (i.e. affiliated students or Cambridge graduates reading Triposes) are recorded under the heading 'Chemical Engineering'.

¹⁾ Incoming exchange and other visiting students are excluded from this table.

Notes on Table UG_HC_05:

^{*} Human, Social, and Political Sciences (HSPS) and Psychological and Behavioural Sciences are two new Triposes with the first year of intake in 2013-14. The Archaeology and Anthropology Tripos and the Politics, Psychology, and Sociology Tripos had a last year of intake into the first year of the course in 2012-13.

^{**} Students admitted to read Chemical Engineering initially read either Engineering or Natural Sciences in their first year and proceed to read Chemical Engineering in subsequent years. They are recorded under the respective headings 'Chemical Engineering via Engineering' and 'Chemical Engineering via Natural Sciences'. Students who are not directly admitted to read Chemical Engineering, but later transfer from another Tripos or students who directly enter Part IIA of the Chemical Engineering Tripos (i.e. affiliated students or Cambridge graduates reading Triposes) are recorded under the heading 'Chemical Engineering'.

¹⁾ Incoming exchange and other visiting students are excluded from this table.

²⁾ Students from the Channel Islands and the Isle of Man who commenced their courses in or after 2013-14 pay the Overseas rate of fee and are included in that category. Islands students who commenced their courses prior to 2013-14 are included in the 'Islands' fee eligibility category.

Notes on Tables UG_HC_05a:

- 1) Incoming exchange and other visiting students are excluded from these tables.
- 2) This table provides a breakdown of subjects for pre-clinical medical and veterinary students (see note 5.3 on page 5). In all other subject tables these students are included under the respective headings 'Medicine (Pre-clinical)' and 'Veterinary Medicine (Pre-clinical)'.
- 3) Students from the Channel Islands and the Isle of Man who commenced their courses in or after 2013-14 pay the Overseas rate of fee and are included in that category. Islands students who commenced their courses prior to 2013-14 are included in the 'Islands' fee eligibility category.

The Archaeology and Anthropology Tripos and the Politics, Psychology, and Sociology Tripos had a last year of intake into the first year of the course in 2012-13.

year of intake into the first year of the course in 2012-13.

** Students admitted to read Chemical Engineering initially read either Engineering or Natural Sciences in their first year and proceed to read Chemical Engineering in subsequent years. They are recorded under the respective headings 'Chemical Engineering via Engineering' and 'Chemical Engineering via Natural Sciences'. Students who are not directly admitted to read Chemical Engineering, but later transfer from another Tripos or students who directly enter Part IIA of the Chemical Engineering Tripos (i.e. affiliated students or Cambridge graduates reading Triposes) are recorded under the heading 'Chemical Engineering'.

1) Incoming exchange and other visiting students are excluded from this table.

^{2) &#}x27;Year of study' relates to the number of years, excluding any periods of intermission, that a student has attended their current course from the time of admission and does not necessarily correspond to the year of the programme. For example, medical and veterinary students who have kept one to three terms since being admitted to the clinical part of their course are recorded as 'Year 1' even though they are on the fourth year of their programme.

Notes on Table UC_HC_09:

Mature students are those who are aged 21 or over.

^{*} Students admitted to read Chemical Engineering initially read either Engineering or Natural Sciences in their first year and proceed to read Chemical Engineering in subsequent years. They are recorded under the respective headings 'Chemical Engineering via Engineering' and 'Chemical Engineering via Natural Sciences'.

¹⁾ Incoming exchange and other visiting students are excluded from this table.

²⁾ Age group is based on the age at the time of admission. The following definition is used where tables are split between young and mature students: **Young** students are those who are aged under 21;

UG_HC_10: Undergraduate student numbers by source of fees by fee eligibility, 2014-15

		Home	EU	Islands	Overseas	Total
01	No award or financial backing	2,235	437	4	1,191	3,867

Notes on Table UG_HC_10:

- 1) Incoming exchange and other visiting students are included in this table.
- 2) The numeric codes and descriptions of the Source of Fees are as defined by the Higher Education Statistical Agency (HESA). The category 'Provider waiver of support costs' includes University Scholarships or awards.
- 3) Data are provisional at the time of publication and may be subject to correction.

- Notes on Table PG_HC_05:

 1) Incoming exchange and other visiting postgraduate students are excluded from this table.

 2) Postgraduates writing up/under examination are included in this table.

 3) 'PGT' refers to graduate and postgraduate students on taught courses; 'PGR' refers to graduate and postgraduate students on research courses.

 4) Students from the Channel Islands and the Isle of Man who commenced their courses in or after 2013-14 pay the Overseas rate of fee and are included in that category. Islands students who commenced their courses prior to 2013-14 are included in the 'Home/Islands' fee eligibility category. The 'Home/Islands' category includes 3 continuing PGR students with Islands fee eligibility.

PG_HC_06: Postgraduate students admitted to their current course in the previous twelve months by School by Faculty/Department by level of study by fee eligibility, 2014-15

Notes on Table PG_HC_07:

* Most students studying for a Ph.D. or Eng.D. qualification are required to complete a probationary year and are initially registered either for the Certificate of Postgraduate Study (C.P.G.S.) or for a probationary Ph.D. (Prob.). This column shows the number of students on a probationary year for each faculty/department and is a subset of the "Total" column.

1) Doctorate-level students include matriculated full-time and part-time students reading for the Eng.D., Ph.D., Ed.D., M.D., probationary Ph.D. and C.P.G.S.

2) Incoming exchange and other visiting postgraduate students are excluded from this table.

PG_HC_08: Doctorate-level postgraduate students admitted to their current course in the previous twelve months by School by Faculty/Department by mode of study by gender, 2014-15

Notes on Table PG_HC_09:

56

^{*}Most students studying for a Ph.D. or Eng.D. qualification are required to complete a probationary year, and are initially registered either for the Certificate of Postgraduate Study (C.P.G.S.) or for a probationary Ph.D. (Prob.). This column shows the number of students on a probationary year for each faculty/department and is a subset of the 'Total' column.

1) Doctorate-level students include matriculated full-time and part-time students reading for the Eng.D., Ph.D., Ed.D., M.D., probationary Ph.D. and C.P.G.S.

²⁾ Incoming exchange and other visiting postgraduate students are excluded from this table.

³⁾ Students from the Channel Islands and the Isle of Man who commenced their courses in or after 2013-14 pay the Overseas rate of fee and are included in that category. Islands students who commenced their courses prior to 2013-14 are included in the 'Home/Islands' fee eligibility category. The 'Home/Islands' category includes 1 full-time continuing student with Islands fee eligibility (in the Department of Geography).

PG_HC_10: Doctorate-level postgraduate students admitted to their current course in the previous twelve months by School by Faculty/Department by mode of study by fee eligibility, 2014-15

Notes on Table PG_HC_11:

1) Research Masters-level students include matriculated full-time and part-time students reading for the M.Litt., M.Sc., M.Phil., M.Res., M.St., M.Ed. and various postgraduate level Diplomas.

2) See Appendix 2 for the breakdown of research and taught Masters courses.

3) Incoming exchange and other visiting postgraduate students are excluded from this table.

PG_HC_12: Research Masters-level postgraduate students admitted to their current course in the previous twelve months by School by Faculty/Department by mode of study by gender, 2014-15

- Notes on Table PG_HC_16:

 1) Taught Masters-level students include matriculated full-time and part-time students reading for the M.Phil., M.St., M.B.A., Executive M.B.A., M.Fin., LL.M., M.C.L., M.A.St., M.Mus., P.G.C.E. and various postgraduate level Diplomas.

 2) See Appendix 2 for the breakdown of research and taught Masters courses.

 3) Incoming exchange and other visiting postgraduate students are excluded from this table.

 4) Current intake includes students admitted to their current course in the twelve months preceding the 1 December.

7

- Notes on Table PG_HC_18:

 1) Taught Masters-level students include matriculated full-time and part-time students reading for the M.Phil., M.St., M.B.A., Executive M.B.A., M.Fin., LL.M., M.C.L., M.A.St., M.Mus., P.G.C.E. and various postgraduate level Diplomas.

 2) See Appendix 2 for the breaddown of research and taught Masters courses.

 3) Incoming exchange and other visiting postgraduate students are excluded from this table.

 4) Current intake includes students admitted to their current course in the twelve months preceding the 1 December.

 5) Students from the Channel Islands and the Isle of Man who commenced their courses in or after 2013-14 pay the Overseas rate of fee and are included in that category.

PG_HC_19: Postgraduate student numbers by course of study by degree type by mode of study by fee eligibility, 2014-15

Notes on Table PG_HC_19:

¹⁾ Incoming exchange and other visiting postgraduate students are excluded from this table.

2) Most students studying for a Ph.D. qualification are required to complete a probationary year, and are initially registered either for the Certificate of Postgraduate Study (C.P.G.S.) or for a probationary Ph.D.

3) Students from the Channel Islands and the Isle of Man who commenced their courses in or after 2013-14 pay the Overseas rate of fee and are included in that category. Islands students who commenced their courses prior to 2013-14 are included in the 'Home/Islands' fee eligibility category. The 'Home/Islands' category includes 1 full-time continuing student with Islands fee eligibility (Ph.D. in Geography).

PG_HC_20: Postgraduate students admitted to their current course in the previous twelve months by course of study by degree type by mode of study by fee eligibility, 2014-15

Notes on Table PG_HC_20:

1) Incoming exchange and other visiting postgraduate students are excluded from this table.

Course

- 2) Current intake includes students admitted to their current course in the twelve months preceding the 1 December.
- 3) Most students studying for a Ph.D. qualification are required to complete a probationary year, and are initially registered either for the Certificate of Postgraduate Study (C.P.G.S.) or for a probationary Ph.D.
- 4) Postgraduate students on the integrated doctoral 1+3 courses that combine one year M.Res. followed by 3 year Ph.D. are counted as intake students both at the point of entry of the M.Res. part of the course and the Ph.D. part
- 5) Students from the Channel Islands and the Isle of Man who commenced their courses in or after 2013-14 pay the Overseas rate of fee and are included in that category.

Notes on Table COL_HC_11:

- 1) Incoming exchange and other visiting students are excluded from this table.
- 2) Mature students are defined as students who were aged 21 or over at the time of admission.
- 3) Medical and veterinary students obtain a B.A. for the pre-clinical part of their course and are recorded as a new admission when they enrol on the clinical part of their course. Therefore for these students age at time of admission indicates the age when students started the clinical part of their course, not the age at the time of admission to their pre-clinical course. Thus the majority of medical and veterinary students starting the clinical part of their course will be defined as mature students.
- 4) The 'Previous degree' category in Table COL_HC_11 includes all affiliated students, Cambridge graduates reading triposes, medical and veterinary students on the clinical part of their course and students reading the Graduate Course in Medicine. It also includes students undertaking any other course who had already obtained a previous Higher Education degree at the time of admission to their course.

- Notes on Table BIO_04:

 * Denotes Commonwealth countries. British Overseas Territories are considered members of the Commonwealth through the UK.

 1) This table presents data for part-time students only.

 2) Students whose nationality is recorded as the Isle of Man or Channel Islands are reported as UK nationals, on the grounds that they all hold a type of British nationality under British Nationality Law.

 3) If a student holds more than one nationality, then the nationality given as the primary nationality is reported.

 4) Postgraduates writing up/under examination are excluded from this table.

 5) Incoming exchange and other visiting students are excluded from this table.

- Notes on Table BIO_05:

 * Denotes Commonwealth countries. British Overseas Territories are considered members of the Commonwealth through the UK.

 1) This table presents data for full-time students only.

 2) Domicile (country of normal residence) is taken here to be the country of the student's permanent home address prior to entry to the current programme of study.

 3) The UK-domiciled sub-total includes students who are domiciled in England, Scotland, Wales, Northern Ireland, the Isle of Man and the Channel Islands.

 * Denotes Commonwealth countries. British Overseas Territories are considered members of the Commonwealth through the UK.
- 1) This table presents data for full-time students only.

- 1) This table presents data for full-time students only.

 2) Domicile (country of normal residence) is taken here to be the country of the student's permanent home address prior to entry to the current programme of study.

 3) The UK-domiciled sub-total includes students who are domiciled in England, Scotland, Wales, Northern Ireland, the Isle of Man and the Channel Islands.

 4) Postgraduates writing up/under examination are excluded from this table.

 5) Incoming exchange and other visiting students are excluded from this table.

 6) Students from the Channel Islands and the Isle of Man who commenced their courses in or after 2013-14 pay the Overseas rate of fee and are included in that category.

 Islands students who commenced their courses prior to 2013-14 are included in the 'Home/Islands' fee eligibility category.

Notes on Tables BIO_15 and BIO_16:

- 1) Ethnicity data are as reported on the basis of the student's self-assessment.
- 2) The numeric codes and descriptions of ethnicity categories are as defined by the Higher Education Statistical Agency (HESA).
- 3) Postgraduates writing up/under examination are excluded from these tables.
- 4) Incoming exchange and other visiting students are excluded from these tables.5) The UK-domiciled category includes students domiciled in England, Scotland, Wales, Northern Ireland, Isle of Man and Channel Islands.

Notes on Tables BIO_25 and BIO_26:

- 1) Disability data are as reported on the basis of the student's self-assessment.
- 2) The numeric codes and descriptions of disability categories are as defined by the Higher Education Statistical Agency (HESA).
- 3) Postgraduates writing up/under examination are excluded from these tables.
- 4) Incoming exchange and other visiting students are excluded from these tables.
 5) The UK-domiciled category includes students domiciled in England, Scotland, Wales, Northern Ireland, Isle of Man and Channel Islands.

Notes on Tables BIO_31 and BIO_32:

¹⁾ Medical and veterinary students obtain a B.A. for the pre-clinical part of their course and are recorded as a new admission when they enrol on the clinical part of their course. Therefore for these students age at time of admission shown in Tables BIO_31 and BIO_32 indicates the age when students started the clinical part of their course, not the age at the time of admission to their pre-clinical course.

²⁾ The 'Previous degree' category in Tables BIO_31 and BIO_32 includes all affiliated students, Cambridge graduates reading triposes, medical and veterinary students on the clinical part of their course and students reading the Graduate Course in Medicine. It also includes students undertaking any other course who had already obtained a previous Higher Education degree at the time of admission to their course.

3) Incoming exchange and other visiting students are excluded from these tables.

Notes on Tables BIO_33 and BIO_34:

- 1) Incoming exchange and other visiting students are excluded from these tables.
- 2) Current intake in Table BIO_34 includes students admitted to their current course in the twelve months preceding the 1 December.

Appendix 1 Definition of undergraduate and postgraduate students

This list is current for 2014-15 (see Statutes and Ordinances).

1. Undergraduate

- a) Students studying for the following degrees: B.A., B.Th., M.Eng., M.Sci., M.Math., M.B./B.Chir. and Vet.M.B.
- b) Students reading Triposes who will not be awarded a qualification:
 - incoming undergraduate students on the ERASMUS exchange scheme;
 - incoming undergraduate students on the MIT exchange scheme;
 - incoming undergraduate students on the NUS exchange scheme;
 - other visiting students reading Triposes;
 - Cambridge graduate students reading Triposes.

2. Postgraduate

- a) Students studying for:
 - Degrees:

Eng.D., Ph.D., Ed.D., M.D., M.Litt., M.Sc., M.Phil., M.Res., M.St., LL.M.*, M.C.L.*, M.B.A.*, M.Ed., M.Fin.*, M.A.St.* and M.Mus.*.

• Diplomas:

Economics

International Law

Legal Studies

Conservation of Easel Paintings*

Theology and Religious Studies*

Certificates:

Certificate of Postgraduate Study (C.P.G.S.)

Postgraduate Certificate in Education (P.G.C.E.)*

- b) Students registered as Probationary Ph.D.
- c) Registered graduate students who will not be awarded a qualification:
 - incoming postgraduate students on the ERASMUS exchange scheme;
 - other visiting postgraduate students.
- * Courses for which students are not registered as graduate students (see section 4.1 of the notes on p. 5).

Appendix 2 Definition of taught and research courses

Undergraduate

All undergraduate courses are classified as *taught* according to HEFCE definitions.

Postgraduate

Degrees	R= Research
	T = Taught

Theology and Religious Studies	T

Certificates	
Certificate of Postgraduate Study (C.P.G.S.)	R
Postgraduate Certificate in Education (P.G.C.E.)	Т

Please note that during 2012-13 (and after the publication of 'Student Statistics 2012-13') a number of courses were reclassified:

from PGR to PGT

- M.Phil. in Architecture and Urban Design;
- M.Phil. in Environmental Design in Architecture Option B;
- M.Phil. in Scientific Computing.

from PGT to PGR

- M.St. in in Applied Criminology, Penology and Management;
- M.St. in Applied Criminology and Police Management;
- M.St. in Sustainability Leadership.

The following courses were reclassified from 'research' to 'taught' in January 2011:

- M.Phil. in Advanced Computer Science;
- M.Phil. in Economic Research;
- M.Phil. in Economics;
- M.Phil. in Innovation, Strategy and Organisation;
- M.Phil. in Management Science & Operations.

These reclassifications lead to an increase in the number of postgraduate taught students and a corresponding decrease in the number of postgraduate research students in comparison with 2010-11 data.
