Notes on Table 1415_FTE1:

- The underlying population for this table covers all students on credit bearing courses who were active (not dormant or on a sabbatical) at some point during the HESA reporting period from 1 August 2014 to 31 July 2015 and who have a record on the University's student records system (CamSIS). The table includes the following groups of students:
 - all incoming exchange and other visiting students;
 - all outgoing exchange and other visiting students;
 - matriculated (students who are members of a Cambridge College) and non-matriculated students;
 - postgraduate students writing up/under examination.
- The tables exclude new entrants who withdrew from their course within two weeks of starting their studies.
- The load is calculated using standard HESA methodology:
 - the load for full-time students who do not intermit, withdraw or change their mode of study throughout the HESA reporting period is equated to 1 FTE;
 - the load for students intermitting or withdrawing at some point during the HESA reporting period is adjusted in proportion to the amount of time they are inactive. E.g. the load for a full-time undergraduate intermitting for one of three terms is 0.67 FTE;
 - the load for students on courses where one year of study is split between two HESA reporting periods is divided between two HESA returns. E.g. the load for a student on a one-year M.Phil. course that starts in October 2014 and finishes in September 2015 is 0.89 FTE in the 2014-15 HESA return and 0.11 FTE in the 2015-16 HESA return;
 - the load for part-time students is calculated as a proportion of an equivalent full-time course;
 - the load for postgraduate students writing up/under examination is 0.1 FTE if they are writing up for the whole reporting period or a proportion of 0.1 FTE if they are writing up for part of the reporting period.
- The "Standard provision" category includes all students returned in the HESA student submission. The "Distance learning provision" category includes part-time students returned in the HESA Aggregate Offshore submission. A student is included in the HESA Aggregate Offshore submission if they are part-time, non-UK domiciled and are expected to spend less than eight consecutive course weeks in the UK during their entire programme.
- The load for the students in the first two years of the Graduate course in Medicine is split 67%:33% between the School of the Biological Sciences and the School of Clinical Medicine. The load for all other students on this course is attributed 100% to the School of Clinical Medicine.
- The undergraduate load recorded in CamSIS as allocated to the Natural Science Tripos Committee is re-allocated to the School of Physical Sciences (50%) and the School of Biological Sciences (50%).
- The undergraduate load recorded in CamSIS as allocated to the Faculty of Mathematics is re-allocated to the Department of Applied Mathematics and Theoretical Physics (50%) and the Department of Pure Mathematics and Mathematical Statistics (50%).

1415_FTE2: Full-time equivalent (FTE) student load for HESA session population by School/Faculty/Department by level of study and fee eligibility, 2014-15

Notes on Table 1415_FTE2:

- This table presents data for the students in the HESA session population, which excludes the following groups of students:
 - students who are inactive (dormant or on a sabbatical) for the whole of the HESA reporting period (1 August to 31 July);
 - all incoming exchange and other visiting students;
 - all part-time non-UK domiciled students returned in the HESA Aggregate Offshore submission;
 - new entrants who withdrew from their course within two weeks of starting their studies.
- This table includes both matriculated (students who are members of a Cambridge college) and non-matriculated students.
- The load is calculated using standard HESA methodology (see note 3 for Table 1415_FTE1 for more details).
- The load for the students in the first two years of the Graduate course in Medicine is split 67%:33% between the School of the Biological Sciences and the School of Clinical Medicine. The load for all other students on this course is attributed 100% to the School of Clinical Medicine.
- The undergraduate load recorded in CamSIS as allocated to the Natural Science Tripos Committee is re-allocated to the School of Physical Sciences (50%) and the School of Biological Sciences (50%).
- The undergraduate load recorded in CamSIS as allocated to the Faculty of Mathematics is re-allocated to the Department of Applied Mathematics and Theoretical Physics (50%) and the Department of Pure Mathematics and Mathematical Statistics (50%).
- Continuing students with an Islands fee eligibility are included within the Overseas category.

1415_FTE3: Full-time equivalent (FTE) student load for matriculated students present in Cambridge by School/Faculty/Department by level of study and fee eligibility, 2014-15

Notes on Table 1415_FTE3:

- The underlying population for this table covers matriculated students present in Cambridge at some point during the HESA reporting period from 1 August 2014 to 31 July 2015. The table excludes the following groups of students:
 - non-matriculated students, e.g. students who are not members of a Cambridge college;
 - students who are inactive (dormant or on a sabbatical) for the whole of the HESA reporting period (1 August to 31 July);
 - all outgoing exchange and other outgoing students, including postgraduate students participating in NIH, Howard Hughes and A*STAR programmes;
 - all part-time non-UK domiciled students returned in the HESA Aggregate Offshore submission;
 - new entrants who withdrew from their course within two weeks of starting their studies.
- The load is calculated using standard HESA methodology (see note 3 for Table 1415_FTE1 for more details) and then further adjusted for the postgraduate students who are given permission to work away for a portion of the academic year. Postgraduate students who are given permission to work away for the whole year are excluded as outgoing students.
- The load for the students in the first two years of the Graduate course in Medicine is split 67%:33% between the School of the Biological Sciences and the School of Clinical Medicine. The load for all other students on this course is attributed 100% to the School of Clinical Medicine.
- The undergraduate load recorded in CamSIS as allocated to the Natural Science Tripos Committee is re-allocated to the School of Physical Sciences (50%) and the School of Biological Sciences (50%).
- The undergraduate load recorded in CamSIS as allocated to the Faculty of Mathematics is re-allocated to the Department of Applied Mathematics and Theoretical Physics (50%) and the Department of Pure Mathematics and Mathematical Statistics (50%).
- Continuing students with an Islands fee eligibility are included within the Overseas category.

1415_FTE4a: Full-time equivalent (FTE) student load for matriculated fee-paying undergraduate students by School/Faculty/Department by fee eligibility and year of entry, 2014-15

Notes on Table 1415_FTE4a:

1. The underlying population for this table covers fee-paying matriculated undergraduate students. The table excludes the following groups of students:

- non-matriculated students, e.g. students who are not members of a Cambridge College;
- students who are inactive (dormant or on a sabbatical) for the whole of the HESA reporting period;
- all incoming exchange students as they pay no fees;
- new entrants who withdrew from their course within two weeks of starting their studies.

2. The load is calculated using standard HESA methodology (see note 3 for Table 1415_FTE1 for more details). The load for the outgoing students on the compulsory year abroad is further adjusted to represent the proportion of the fee they are paying, e.g. 0.15 FTE for Home/EU students and 0.5 FTE for Overseas students.

3. The load for the students in the first two years of the Graduate course in Medicine is split 67%:33% between the School of the Biological Sciences and the School of Clinical Medicine. The load for all other students on this course is attributed 100% to the School of Clinical Medicine.

4. The undergraduate load recorded in CamSIS as allocated to the Natural Science Tripos Committee is re-allocated to the School of Physical Sciences (50%) and the School of Biological Sciences (50%).

5. The undergraduate load recorded in CamSIS as allocated to the Faculty of Mathematics is re-allocated to the Department of Applied Mathematics and Theoretical Physics (50%) and the Department of Pure Mathematics and Mathematical Statistics (50%).

1415_FTE4b: Full-time equivalent (FTE) student load for matriculated fee-paying postgraduate students by School/Faculty/Department by fee eligibility and year of entry, 2014-15

Notes on Table 1415_FTE4b:

1. The underlying population for this table covers fee-paying matriculated postgraduate students. The table excludes the following groups of students:

- non-matriculated students, e.g. students who are not members of a Cambridge college;
- students who are inactive (dormant or on a sabbatical) for the whole of the HESA reporting period (1 August to 31 July);
- incoming postgraduate Erasmus exchange students as they pay no fees;
- postgraduate students with study agreements indicating they were given permission to work away with no fees payable for the whole academic year;
- postgraduate students writing up/under examination;
- new entrants who withdrew from their course within two weeks of starting their studies.

2. The load is calculated using standard HESA methodology (see note 3 for Table 1415_FTE1 for more details). The load for the for the postgraduate students with study agreements indicating they were given permission to work away with no fees payable for one or two terms is further adjusted.

1415_FTE5: Full-time equivalent (FTE) student load for HESES population by School/Faculty/Department by level of study and fundability status, 2014-15 (HESA-HESES recreation)

Notes on Table 1415_FTE5:

- This table presents data for the students in the HESES countable population, which excludes the following groups of students:
 - students who are inactive (dormant or on a sabbatical) for the whole year between the anniversaries of their starting date;
 - postgraduate students who are writing up/under examination for the whole year between the anniversaries of their starting date.
 - all incoming exchange and other visiting students;
 - students who have less than 0.03 FTE for the whole academic year;
 - students who withdrew before the HESES census date of 1 December.
- The load is calculated using HESES methodology:
 - the load for all full-time students is equated to 1 FTE;
 - the load for students on a sandwich year out (i.e. students who spend at least one term on a working placement during their year abroad) is equated to 0.5 FTE;
 - the load for part-time students is calculated as a proportion of an equivalent full-time course;
 - the load for students on courses where one year of study is split between two HESA reporting periods is returned for the first reporting period only. E.g. the load for a student on a one-year M.Phil. course that starts in October 2014 and finishes in September 2015 is reported as 1 FTE in the HESES 2014 and the 2014-15 HESA-HESES recreation and no load is returned for the student in the following year.
 - the load for students who did not complete their year of study is returned as a negative value. In a given academic year the students are counted as non-completion if they fail to undergo the final assessment of any of the modules (compulsory examination papers in Cambridge terms) that they intended to complete in a year of study, within thirteen calendar months from the start of that year of study.
- In the HESES return Home/EU undergraduate and postgraduate taught students are classed as "Non-fundable" if they are aiming for an equal or lower qualification (ELQ) than one they already hold and they are not ELQ exempt. All Home/EU postgraduate research students are classed as "Non-fundable" in HESES.
- The load for the students in the first two years of the Graduate course in Medicine is split 67%:33% between the School of the Biological Sciences and the School of Clinical Medicine. The load for all other students on this course is attributed 100% to the School of Clinical Medicine.
- The undergraduate load recorded in CamSIS as allocated to the Natural Science Tripos Committee is re-allocated to the School of Physical Sciences (50%) and the School of Biological Sciences (50%).
- The undergraduate load recorded in CamSIS as allocated to the Faculty of Mathematics is re-allocated to the Department of Applied Mathematics and Theoretical Physics (50%) and the Department of Pure Mathematics and Mathematical Statistics (50%).

1415_FTE6: Full-time equivalent (FTE) student load for PGR students by School/Faculty/Department by level of study, fundability status and fee eligibility, 2014-15

Notes on Table 1415_FTE6:

1. The underlying population for this table covers postgraduate research students. The table excludes the following groups of PGR students:

- students who are inactive (dormant or on a sabbatical) for the whole year between the anniversaries of their starting date;
- postgraduate students who are writing up/under examination for the whole year between the anniversaries of their starting date;
- all incoming exchange and other visiting students;
- all part-time non-UK domiciled students returned in the HESA Aggregate Offshore submission;
- new entrants who withdrew from their course within two weeks of starting their studies.

2. This table includes both matriculated (students who are members of a Cambridge college) and non-matriculated students.

3. The load is calculated using standard HESA methodology (see note 3 for Table 1415_FTE1 for more details).

4. The level of study reported for postgraduate research degrees is as follows:

- Masters level: M.Litt., M.Sc., M.Phil., M.Res., M.A.St., LL.M., M.C.L., M.Mus., M.Fin., M.B.A., Executive M.B.A., M.St., M.Ed. and various postgraduate-level Diplomas (M.Phil. and M.Res.parts of 1+3 programmes are included here);
- Doctorate level: Ph.D., Eng.D., Ed.D., M.D., probationary Ph.D. and C.P.G.S.

5. In the HESA return Home/EU postgraduate research students are classed as "Fundable" if they are actively supervised by an academic member of staff employed by a higher education institution in England. Data in the "Fundable" column in this table represent the FTE for fundable students for the 2014-15 academic year and is different from FTE calculations used by HEFCE to derive research development programme (RDP) part of QR funding, which links several years' sets of data.

1415_FTE7: Full-time equivalent (FTE) student load for calculation of student/staff ratio by cost centre by level of study

Notes on Table 1415_FTE7:

- This table presents data for the students in the HESA session population, which excludes the following groups of students:
 - students who are inactive (dormant or on a sabbatical) for the whole of the HESA reporting period (1 August to 31 July);
 - all incoming exchange and other visiting students;
 - all part-time non-UK domiciled students returned in the HESA Aggregate Offshore submission.
 - new entrants who withdrew from their course within two weeks of starting their studies.
- This table includes both matriculated (students who are members of a Cambridge College) and non-matriculated students.
- Students who do not have a record on the University's student record system (CamSIS) are not included, e.g. students following executive courses at the Cambridge Programme for Sustainability Leadership.
- The load is calculated using HESA student/staff ratio (SSR) methodology, which itself is based on the standard HESA methodology (see note 3 for Table 1415_FTE1 for detailed description) but with two further adjustments:
 - the load for students who spend the whole academic year abroad on a working placement is adjusted to 0.5 FTE;
 - the load for students on courses with collaborative provision is adjusted to reflect the proportion of collaboration contributed by the University of Cambridge. E.g. the load for a student on a course with collaborative provision where the University of Cambridge delivers 10% of the course is adjusted from 1 FTE to 0.1 FTE.
