Notes on statistical tables

General

1. All data are as at 1 December 2006 unless stated otherwise. This is the census date for the Higher Education Student Early Statistics Survey (HESES) submitted to the Higher Education Funding Council for England (HEFCE) in December of each year. The University also makes an annual return to the Higher Education Statistics Agency (HESA). This return provides more detailed information on individual students and covers the period 1 August 2006 to 31 July 2007. The terms used in this booklet are consistent with those used by HEFCE/HESA unless stated otherwise.
2. Students who are on intermission from a course (for example, owing to ill health) are excluded from all of the tables.
3. Fee eligibility categories reported in the tables are as follows:
 - Home – students with qualifying residence in the UK
 - EC – students with qualifying residence in the EEA (comprises the 25 countries of the EU plus Iceland, Norway and Liechtenstein) or Switzerland.
 - Islands – students with qualifying residence in the Isle of Man or the Channel Islands (applicable to undergraduate students and students on postgraduate initial teacher training courses: all other postgraduate students with qualifying Islands residency are given Home fee eligibility).
 - Overseas – students who do not have qualifying residence in the categories above. (Overseas students who are in receipt of an Overseas Research Students Award Scheme (ORS) studentship award who pay the Home rate of fees are included in the Overseas fee eligibility category.)
4. The headings 'Undergraduate/Postgraduate', 'Arts/Science', 'Full-time/Part-time' in these tables are as defined by HESA. A complete list of courses designated 'undergraduate' or 'postgraduate' is shown in Appendix 1. The division of Faculties and Departments between Arts and Science is shown in Appendix 2.
5. Ethnicity and disability data are as reported on the basis of the student's own self-assessment.

Time series and all student tables

6. This section summarises data for undergraduates and postgraduates, including time series data, and also gives a summary of the return made to HEFCE. Further information about definitions of student numbers (headcount) and student load (full-time equivalent) are given in the individual Undergraduate and Postgraduate sections below.
7. Up to and including 1993-94, UGC/UFC (the bodies which preceded HEFCE) definitions have been used in cumulative tables and the figures were calculated at the UGC/UFC census date of 31 December. From 1994-95 HEFCE/HESA definitions have been used and the baseline has been changed to 1 December.

8. *Impact of European Union expansion on home/overseas student distribution*
 On 1 May 2004 the following countries were granted full EU membership: Cyprus, the Czech Republic, Estonia, Hungary, Latvia, Lithuania, Malta, Poland, Slovakia, and Slovenia. In and after 2005-06 students from those countries are classified as Home/EU, not Overseas. On 1 January 2006 Bulgaria and Romania were granted full EU membership. Students from these countries will be classified as Home/EU in and after 2007-08.
9. The data for 2006-07 differ from those published in 'Student Numbers 2006-07', *Cambridge University Reporter*, Special No. 9, 2008, owing to the subsequent correction of data. The corrected data for 2006-07 will be reported in 'Student Numbers 2007-08'.

Undergraduate tables

10. The undergraduate tables include students reading:
- Undergraduate courses with the qualification aim of B.A., M.Sci., M.Eng., B.Th. or Mus.B.;
 - Clinical Medicine (M.B.);
 - Clinical Veterinary Medicine (Vet.M.B.);
 - Certificate of Advanced Study in Mathematics (Part III Mathematics);
 - Undergraduate courses, but who will not be awarded a qualification (either incoming exchange or other visiting students or students who have been awarded a Cambridge degree from a previous course of study).
11. The undergraduate tables do not include part-time students on undergraduate-level courses at the Institute of Continuing Education (ICE). However, an estimate of FTE load for these students is included in the FTE load tables.
12. *Undergraduate Numbers (headcount)*
 The headcount includes both incoming and outgoing exchange students (ERASMUS and MIT) and students studying or working abroad as part of their course. However, incoming MIT and ERASMUS exchange students and outgoing ERASMUS exchange students are excluded from tables 06UG03a and 06UG04a, because they do not pay fees.

Pre-clinical medical students and pre-clinical veterinary medical students read the Medical and Veterinary Sciences Tripos in years one and two, but read a different tripos in year three. In all tables they are included under the respective headings 'Pre-clinical Medicine' or 'Pre-clinical Veterinary Medicine' irrespective of the Tripos examination for which they were entered in their final year (with the exception of Table 06UG07ii, which gives a breakdown of numbers by the actual Tripos read).

13. *Undergraduate Student Load (measured as FTE - full time equivalence)*
 The calculation of student load differs from the method used for the headcount of students in the following respects:
- Third-year preclinical medical and preclinical veterinary medical students are counted as a load on the Faculty/Department appropriate to the Tripos examination for which they were entered.

- Modern Linguists and Oriental Studies students spending a compulsory year abroad are counted as a load of 0.5 on the appropriate Faculty or Department although they were included in the numbers as full-time students. Outgoing students on ERASMUS and MIT reciprocal exchange programmes are given a load of one. Students studying in Paris on the Double Maitrise programme are given a load of zero.

Candidates for Triposes such as English or History were counted as a load of 1.0 on the Faculty/Department concerned. Other candidates were counted as a fractional load on Departments appropriate to the papers they were offering. Thus a candidate for Part IA of the Natural Sciences Tripos offering Chemistry, Physics, Materials and Mineral Sciences, and Mathematics was counted as a load of 0.27 on Chemistry, 0.27 on Physics, 0.135 on Earth Sciences, 0.135 on Materials Science and Metallurgy, 0.16 on DAMTP, and 0.03 on the Computer Laboratory.

The detailed calculation of undergraduate load is complex and modified from time to time. Changes in student load may be the result of changes to the formula, not a change in the student cohort itself. Any queries should be directed to the Student Statistics Office (see contact details at the end of this section).

Affiliated student tables

14. These tables give a further breakdown of some of the data presented in the undergraduate tables. 'Affiliated student' is defined as any person who, before matriculation in the University of Cambridge, has received or become qualified to receive a degree from another institution of higher education, subject to approval. Students who already hold a Cambridge degree are thus excluded from this definition and are recorded as 'Graduate students reading triposes'. These definitions are not used by HEFCE/HESA.

The tables include data for both Affiliated students and the small number of Cambridge graduates reading triposes. Up to and including 2004-05 the tables excluded Cambridge graduates reading triposes.

Postgraduate tables

15. The postgraduate tables include data for all postgraduate students with the exception of part-time students on postgraduate-level courses at the Institute of Continuing Education (but these students are included in the total FTE load estimate for ICE students). Within the University of Cambridge a further distinction is made that is dependent on the student's course of study, whereby some students are registered as Graduate students. Tables which present data by course of study reflect this division under the respective headings, 'Registered Graduate Students' and 'Postgraduates who are not Registered Graduate Students'.
16. Most students studying for the Ph.D. and Eng.D. are required to complete a probationary year and are initially either registered for the Certificate of Postgraduate Study (CPGS) or for a probationary Ph.D.. (For further information about routes to the Ph.D. see www.admin.cam.ac.uk/univ/gsprospectus/study/phd.html)

17. *Mode of Study*

Students are classified as 'Full-time' if they are undertaking a full-time course and have not completed the minimum requirements of their course (i.e., they are neither writing up nor are under examination) and are not intermitting.

Students are classified as 'Part-time' if they are undertaking a part-time course and have not completed the minimum requirements of their course and are not under examination and are not intermitting.

Students who have completed the minimum requirements of their course and are not intermitting are classified as either 'Full-time writing up/under exam' or 'Part-time writing up/under exam'.

Up to and including 2005-06 students undertaking a part-time course and students writing up/under exam (either full-time or part-time) were classified together as 'Not Full-time'.

There has been a change for 2005/06 and 2006/07 in the definition of the 'minimum requirements of a course'. Please see below under 'Postgraduate student load' for further details.

18. *Postgraduate Numbers (headcount)*

The postgraduate numbers are presented by Mode of Study – Full-time; Full-time writing up/under exam; Part-time; and Part-time writing up/under exam.

From 2005-06 onwards, there has been a change in the criteria used for the composition of table PG/12: 'Method of study' is no longer used as a category and this table is now based on postgraduate headcount by Mode of Study.

19. *Postgraduate Student Load*

Students are counted according to the Department in which they were recorded as working on the postgraduate course/research on 1 December. These Departments are assigned to a Cost Centre (see Appendix 3).

Time series should be interpreted taking account of recent changes in the definition of 'Full-time and 'Not full-time' and in the allocation of FTE (full-time equivalent) load for postgraduate students for different periods of their career, as follows:

Up to and including 2004-05, postgraduate students undertaking a full-time course were recorded as 'Full-time' for the required terms of their course and after those terms were classified as 'Not full-time'. For example, a three-year Ph.D. was recorded as 'Full-time' in the first nine terms (and allocated an FTE load of 100% for each year) and as 'Not full-time' in and after the tenth term (and allocated an FTE load of 50% for each complete subsequent year).

In 2005-06 and 2006-07 postgraduate students undertaking a full-time course were recorded as 'Full-time' for the required terms of their course **plus one extra term**, and thereafter as 'Not full-time' (Full-time writing up/under exam in 2006-07). Thus the typical three-year Ph.D. student is recorded as 'Full-time' in the first ten terms and from the eleventh term onwards as 'Not full-time' in 2005-06 and 'Full-time writing up/under exam' in 2006-07. The allocation of FTE load is 100% for the first ten terms and zero in and after the eleventh term. The annual load is therefore 100% for each of the first three years, 33% for the fourth year (in respect of the tenth term) and zero for all subsequent years.

The head count of student numbers in and after 2005-06 includes the Master of Studies courses; those courses are included in FTE load for all years. However in previous years the load attributed to students registered on M.St. courses was assigned to Cost Centre 41 (Institute of Continuing Education). From 2005-06 onwards this load has been reassigned to the appropriate Cost Centres based upon the relevant M.St. department course owners.

The effect of these changes in definitions is that, in comparison to 2004-05, the number of postgraduate students defined as 'Full-time' has increased, but the associated FTE load has decreased. The addition of the part-time Master of Studies students has increased the headcount of 'Part-time students (included in the 'Not full-time' category in the 2005-06 tables).

Degrees

20. Lists the numbers of degrees conferred during the previous academic year (2005-06).

This section does not include information about the qualifications awarded, for example, the Post Graduate Certificate in Education (PGCE).

Departmental load

21. The departmental load table presents the distribution of FTE student load between faculties, departments, and other University institutions. The undergraduate data are derived from examination enrolments (or dummy examination enrolments for students who are not taking any examinations). The postgraduate data are based on the department/faculty/institution responsible for delivering the course/supervising the research. Any queries should be directed to the Student Statistics Office (see contact details below).

Overseas tables

22. The overseas tables use a number of definitions for 'overseas' student:

- Overseas fee eligibility (i.e., students who do not meet the qualifying residency criteria for Home/EU or Island fee eligibility)
- EU fee eligibility
- Non-British nationality

23. Two new tables, 06OS05 and 06OS06, provide nationality and domicile data by fee eligibility for Full-time students (domicile is the country of the student's permanent or home address prior to entry to the current programme of study).

24. If a student holds more than one nationality then the nationality given as the primary nationality is reported. This differs from the HESA definition: 'If dual nationality including UK, code as United Kingdom. If dual nationality including non-UK EC country, then classify with relevant EC country code. If neither UK nor EC country, then classify by either nationality.'

² UG - Undergraduates, PGT - Postgraduates Taught, PGR - Postgraduates Research

³ Third-year Clinical Medical students who are in residence for only one term are returned as part-time in accordance with HEFCE rules, whereas they are counted as full-time in all other tables.

⁴ Courses are classified as 'long' if students are normally required to attend for 45 weeks or more within the year.

⁵ Allocation of students to price groups. Students are allocated to Faculties and Departments according to an agreed formula. Faculties and Departments are allocated to Cost Centres in accordance with instructions provided by HEFCE (see Appendix 3). Cost Centres are then allocated to the various Price Groups in accordance with HEFCE rules.

Pre-clinical medical students and pre-clinical veterinary medical students read the Medical and Veterinary Sciences Tripos in years one and two, but read a different tripos in year three. In all other tables they are included under the respective headings 'Pre-clinical Medicine' or 'Pre-clinical Veterinary Medicine' irrespective of the Tripos examination for which they were entered.

Students studying B.A. + M.Eng. and B.A. + M.Sci. and Mus.B. are also included in this table.

'Year of Study' relates to the number of years, excluding any period of intermission, that a student has attended their current course. Thus a student who has kept less than three terms will be in Year 1 and a student who has kept three to five terms will be in Year 2.

Notes:

1. See Appendix 4 for a definition of Tuition Fee Bands.
2. From 1982-83 the courses in Development Studies were discontinued. Previously about 25 students on the course, who paid no University Composition Fees, were classified as Overseas 'Arts' Students and included in the postgraduate numbers.
3. From 1980-90 'Other' refers to the pre-1980 rate of overseas fees. Thereafter it refers to any fee not otherwise specified.
4. Data for 2005-6 are restated owing to the incorrect inclusion of ORS award students in the Home category in previous publications
5. Incoming and outgoing ERASMUS Students and incoming MIT students are excluded because they do not pay fees.
